TO SUBSCRIBERS, ETC.

In order to secure the annual appearance of the New York State Register, at the subscription price ($1 25), it will be necessary that the names of patrons be given in advance of publication, either to the publisher or his agents, for one or more years—thus giving the public an opportunity to subscribe for the ensuing year, when desired.

By adopting this plan the continuance of the Register from year to year may be relied upon to a certainty, if duly patronized. The price to non-subscribers will be $1 50 for single copies.

Additions and corrections, in regard to Institutions, names, etc., are earnestly requested, so as to enable the compiler to make the future editions of this work a reliable record of all public matters relating to the State of New York. The appearance of the Register, hereafter, will be on or before the First of May annually. J. D.

New York, *May*, 1858.

Entered, according to Act of Congress, in the year 1858, by

JOHN DISTURNELL,

In the Clerk's Office of the District Court of the United States for the Southern District of New York.

PREFACE.

In presenting to the public the New York State Register for 1858, after its discontinuance for ten years, the publisher has no better mode of illustrating its scope and usefulness than by extracting from the Preface to the first edition of 1843, hoping that the numbers, wealth, and intelligence of the citizens of his native State may sustain him in preparing a similar work from year to year, thereby increasing its value and usefulness as a work of reference. Feeling conscious of having labored faithfully to promote the convenience of professional and business men, as well as the seeker after useful knowledge, in various ways, the compiler and publisher now hopes for a liberal patronage from an intelligent and discerning public.

The proper design of a publication of this kind is to furnish a comprehensive and detailed account of the actual condition of the State, embracing its civil divisions, population, institutions, and resources; its public works, its means of general intercourse, and its principal local improvements; its wealth, revenue, and expenditures; the organization of its government, with a record of the persons to whom the administration of that government, throughout its various departments, is committed —in short, a picture of the living, acting, growing commonwealth, with the manifold means and agencies by which its affairs are conducted, its resources unfolded, the business of its people transacted, and the good order, comfort, improvement, prosperity, and happiness of the community secured and advanced.

The multiplied relations and connections that exist between the different portions of the State, and their continually increasing importance to each other as their intercourse extends, all combine to render such a publication not merely interesting to the general or occasional inquirer, but eminently convenient and practically useful, especially to those who are engaged in the professional employments of the community, in the various branches of active business, or are in any way connected with the administration of the laws, or with the management of the more important public and local institutions.

A simple reference to the Table of Contents will show that this Register has been compiled and arranged on the plan and according to the design above indicated; and to all persons employed in public offices, whether of general or local jurisdiction—to professional men—to merchants, bankers, manufacturers, and men extensively engaged in business of any description, or in the management of important institutions—to all who have occasion to transact affairs at a distance and by correspondence with public officers, or with professional men or agents—this Register will be

found an exceedingly valuable manual of information of many kinds constantly at hand, and which they can procure in no other way at so small a cost of time, money, or trouble.

The value of the work is, it is believed, very much enhanced, in this and other respects, by the National Statistics, and other important matter which it embodies in relation to the National Government and the organization of its various departments. Indeed, in reference to all matters of ordinary interest and convenience, this work may be regarded as constituting a NATIONAL as well as a STATE REGISTER.

In respect to the range of matter embraced in the work, it is believed to be as comprehensive, in reference to the topics, and as minute in point of detail, as its patrons will desire; and as to the accuracy of its statements, it may be truly affirmed that they have been made as exact and reliable as several months of assiduous labor and vigilant care could render them.

There is one more topic which is regarded as particularly important in this connection, and on which a remark may, it is hoped, be found serviceable both to the publisher and his patrons. *The value of such a work is materially enhanced by being regularly and punctually continued from year to year.* A single volume, or a Register for only one year, is of little use; it is, in truth, not worth publishing. But if it can be continued punctually and regularly, every successive volume rises in intrinsic value. To the transient convenience of each number for a single year is gradually added the permanent value of a connected series, till, in the lapse of time, the annual publication becomes a great work of perpetual reference, of the most authentic character and of peculiar interest, from its combination of the two features of cotemporaneousness and connected succession. Its Tables of Statistics and Institutions, compiled at first for the transient purposes of the flying year, are by-and-by converted into the solid materials of everlasting history, and its lists of familiar names, collected for the temporary convenience of current business, are soon transformed into the undecaying records of a departed generation, and muster-rolls of leading men of their times.

Considerations like these, it will be at once admitted, enter into the very essence of the value of compilations like this Register; and they are suggested in the belief that they will be regarded as legitimate grounds of appeal to the public for that patronage which is indispensable to secure the regular continuance of the publication. If such patronage shall be afforded, the annual continuation of this Register may be depended on; and as its compiler shall become more familiar with the sources of information and the wants of the public, he will be enabled to render his work more and more acceptable and useful.

The assistance of the Hon. GEORGE FOLSOM and others, in the compilation of the present edition of this work, is thankfully acknowledged by the publisher.

ECLIPSES IN 1858.

In the year 1858 there will be four eclipses—two of the sun, and two of the moon.

1st. A partial eclipse of the moon, February 27, only partly visible in the United States. The moon will rise partly eclipsed, which will take place generally after the time of the greatest phase. Its magnitude will be 0.333 of moon diameter on the southern limb.

2d. An annular eclipse of the sun, March 15. The sun will be centrally eclipsed on the meridian in lon. 3° 45′ west of Greenwich, lat. 45° 44′ north. In some parts of the United States the sun will be partially eclipsed.

3d. A partial eclipse of the moon, August 24. The magnitude of the eclipse will be 0.470 of moon diameter on the northern limb. At some places the first contact will not be visible; but to most places in the United States the whole eclipse will be visible.

4th. A total eclipse of the sun, September 7. In lon. 40° 51′ west of Greenwich, lat. 30° 59′ south. This eclipse will be total on the meridian. The sun will be centrally eclipsed in the southern hemisphere only.

DIRECTIONS.—The Dominical letter for any year will be found against the first three figures of the date, and under the fourth or unit figure. There are two Dominical letters for every Bissextile year; the first serving for January and February, and the other for the remainder of the year.

DIRECTIONS. Seek the Dominical letter for the given year against the given month in this table, and the figures below in that column, show the days of the month answering to each of the Sundays—from the nearest of which to the given day, count backward or forward in the week, as in the following example:

What day of the week was May 28th, 1808? The Dominical letter for that year, after February (it being bissextile), was B, which against May stands over the 29th day. Now as the 29th was Sunday, the 28th, you know, must have been Saturday.

LEGAL RATES OF INTEREST.

The legal rate is 8 per cent. in Georgia, Alabama, Mississippi, Louisiana, and Florida. It is 7 per cent. in New York, South Carolina, Michigan, Wisconsin, and Iowa. In all the other states it is 6 per cent.

MEASURES OF TIME AND MOTION.

EXTRACT FROM BRITISH ALMANAC.—1851.

A mean solar day is the mean apparent time of one revolution of the earth on its axis; it is divided into 24 hours, an hour into 60 minutes, and a minute into 60 seconds, &c.: hence the mean daily apparent motion of the sun is 15 degrees per hour, or 1 degree in 4 minutes of time. A sidereal day is the real and invariable period of the diurnal rotation, and contains 23 hours, 56 minutes, 4 1-10 seconds of mean solar time. A tropical year is the period of one revolution of the earth in its orbit, and contains 365 days, 5 hours, 48 minutes, 49·19 seconds of mean solar time. The seconds' pendulum makes 86,400 vibrations in a mean solar day at the same place on the earth's surface.

PAR OF EXCHANGE.

The exact par of exchange is 109¼. As much as it rises above that rate shows the profit in transmitting gold to England from the United States, as much as it falls below that rate, shows the profit in importing gold from England into the United States. But then, in both cases, allowance must be made for the charges in various ways of the transaction. These are much smaller in the transmission of bullion from England than the import from England to America, for this obvious reason—the actual exchange quoted is always for bills drawn at New York on London at sixty days' sight. If therefore, bills are bought in New York to be sent to London for the purchase of gold, a charge of 63 days' interest attaches to these bills on their immediate investment. While, on the other hand, if gold be sent in place of bills, the gold on its arrival is cash at once, while the bills would have 63 days to run.

But besides the interest there is the cost of freight, insurance, and shipping charges, which apply to gold and not to bills; but these are about the same either way. It is, however, considered profitable to send gold here when the exchange is at 110½, being about 1 per cent. above par, while it is not profitable to import gold from here until the exchange falls to 106¼, or about 3 per cent. below par. At the present rate of exchange, the profit will be about 1¾ per cent. in importing gold, but this includes any risk which attaches to the bills. The calculation of interest and charges in sending gold from this country to invest in bills in New York, or of purchasing bills in New York to transmit to this country for investment in gold is, as follows:

The par of exchange says				109½
Freight				½
Insurance				1¼
INTEREST—				
Buying bills in New York	3	days.		
Passage home	14	"		
Bills to run	63	"		
Procuring sovereigns, transmitting to Liverpool, and shipment	4	"		
Passage out	14	"		
Landing and sale of sovereigns	4	"		
Interest for loss of time	102	"	1	2¼
Net cost of importing gold to New York				106¾

Of course the calculation will vary at different times, according to the rate of interest at the moment.

ENGLISH COINS.

Gold Coin.

The standard gold coin of Great Britain is made of a metal consisting of 22 parts of pure gold and 2 parts of copper. The pound sterling is represented by a gold coin called a sovereign, and from a pound troy of standard gold are coined 46 29-40 sovereigns, so that the weight of each is 5 dwts. 3 171-623 grs., or 123.274 grs.; and the mint price of standard gold is therefore very nearly £3 17*s.* 10½*d.* per ounce.

Silver Coin.

The standard silver coin consists of 37 parts of pure silver and 3 parts of copper, and a pound troy of this metal furnishes 66 shillings, so that the weight of a shilling is 3 dwts. 15 3-11 grs., and the mint price of standard silver is 5*s.* 6*d.* per ounce. The silver coinage is not a legal tender for more than 40*s.*, the gold coinage above mentioned being the only general standard of value.

In the copper coinage, 24 pence are made from an avoirdupois pound of copper, so that a penny should weigh 10¾ drs. avoirdupois, or 291¾ grs. troy. but this is not a legal tender for more than 12*d.*

A farthing is the lowest denomination in use, but it is customary to denote farthings by fractions of a penny, as in the table.

A Farthing is written or marked			¼*d.*
2 Farthings are	1	Halfpenny	½*d.*
4 Farthings	1	Penny	1*d.*
12 Pence	1	Shilling	1*s.*
20 Shillings	1	Pound	£1.

Money as expressed by means of these denominations is commonly called sterling money, in order to distinguish it from stock, &c., which is merely nominal.

Though all commercial transactions are conducted by means of the money enumerated in the preceding table, there are other coins or denominations frequently met with, and some of them more particularly in old documents, of which the following are the most important, and their values in current money are here annexed:

OF THE

STATE OF NEW YORK.

The State is divided into 60 counties, which are subdivided into 920 towns and 13 cities, containing 118 wards, in January, 1858. Many of the towns contain incorporate villages. These are the *municipal divisions*, and they are civil corporations, with powers more or less extensive according to their charters, as granted and modified from time to time by the Legislature. *School districts* are another division, for the management and maintenance of public schools; in January, 1857, they amounted to 11,857.

There are other divisions, more properly termed *political*. These are the 32 Senate Districts, the 128 Assembly Districts, and the 33 Congressional Districts.

The *Senate* and *Assembly Districts* are arranged every ten years by the Legislature, acting under a provision for that purpose in the State Constitution, on the basis of a Census taken under the same authority. The *Congressional Districts* are arranged, in like manner, every ten years, on the taking of the United States census, the latter enumeration occurring every tenth year, commencing in 1790. The former occurring in the intervening period, commencing in 1825.

The 8 *Judicial Districts* constitute another division, established by an act of the Legislature, passed May 8, 1847.

By the present Constitution of the State, adopted in 1846, Senators hold their seats for two years; the whole number being elected every second year. The Lieutenant-Governor is, by virtue of his office, their president.

Until 1846, members of Assembly were elected in the several counties by general ticket. Since that date they have been elected by single districts designated by the Board of Supervisors, and consisting of convenient and contiguous territory, of as nearly equal population as practicable.

Congressional Districts.—The House of Representatives of the United States is composed of members elected by districts, with a term of two years. The number has varied at each decennial census, as shown by the following Table:

Census.	When Apportioned.	N. York Rep.	Whole No. Rep.	Ratio, one to
	By Constitution	6	65	———
1790	April 14, 1792	10	105	33,000
1800	Jan. 14, 1802	17	141	33,000
1810	Dec. 21, 1811	27	181	35,000
1820	March 7, 1822	34	212	40,000
1830	May 22, 1832	40	240	47,700
1840	June 25, 1842	34	223	70,680
1850	July 30, 1852	33	233	93,423

The Constitution of the United States provides that two Senators shall be chosen by the Legislature of each State, who shall hold their office six years.

STATE CANALS.

The *Canals* constructed, or in course of construction by the State, and belonging to it as public property, are ten in number; and in the following general account of them the statutory designations of them are adopted.

ERIE CANAL.

This Canal as first built, was commenced with public ceremonies, July 4, 1817; and it was finished, ready for navigation in its whole extent, from Lake Erie at Buffalo, to the Hudson River at Albany, in October, 1825, at the total cost, including interest and loans, and all other disbursements, of $10,731,595. Its main trunk, as originally constructed, was 40 feet wide at top, 28 feet at bottom, and 7 feet in depth, with 4 feet depth of water, is 363 miles long, exclusive of feeders and side-cuts. It had only 84 lift locks, both ascending and descending, giving a rise and fall of only 692 feet; and but 3 summit levels, viz.: the Rome level, 69 miles long, extending from Frankfort, 9 miles east of Utica, nearly to Syracuse; the short Jordan level, between the valley of the Onondaga Creek at Syracuse, and that of the Seneca River at Montezuma; and the Lake Erie level, extending from Buffalo to Lockport. The Oak Orchard level, also, though not a summit, is 60 miles long, extending from Rochester, to the foot of the Mountain Ridge, at Lockport. The lowest level on the line, from which the canal ascends, each way, is at the Montezuma Marshes. The heights of the more important levels above the Hudson, at Albany, are as follows:

The Rome level, 425 feet; the Oak Orchard level, 506 feet; and the Lake Erie level, 561 feet. The principal Aqueducts on the original work were as follows: Two consisting of wooden trunks supported by stone piers, across the Mohawk River, between the Cohoes Falls and Schenectady; one, made wholly of stone, across the Mohawk at Little Falls; and the other, consisting wholly of stone, also, and much the most massive and costly, across the Genesee River, at Rochester. The other features of the original work most remarkable, either for difficulty of execution, or for their imposing aspect when finished, were, the section crossing the great marshes at Montezuma, traversed by the Seneca and Clyde rivers, and during the excavation of which, it was necessary to keep pumps driven by horse-power at work night and day, for a distance of several miles; the great embankment, 72 feet in perpendicular height, with a base of about 250 feet in width across the ravine of the Irondequoit Creek, a few miles east of Rochester; the rock excavation, through the Mountain Ridge, at Lockport; and the pier and dam at Black Rock. in the Niagara River.

On the 11th of May, 1835, the Legislature passed an act for the enlargement of this canal. By that act, the size of the enlargement and the general outlines of the work were submitted to the determination of the Canal Board, a body composed of the Board of Canal Commissioners and the Commissioners of the Canal Fund. After such investigation as was deemed sufficient, the Canal Board, in 1836, decided that the dimensions of the enlarged canal should be as follows: Width at top, 70 feet; at bottom, 42 feet; perpendicular depth, 10 feet, with 7 feet depth of water; the locks to be in pairs, each lock having its chamber, 110 feet long, by 18 feet wide.

The enlargement having been determined on, operations were commenced in 1836, and a great amount of work has been done. The Commissioners have wisely availed themselves of the occasion, to improve the location of the canal in many places; straightening the curves wherever practicable, shortening the distance, and diminishing the total quantity of lockage. In this way, the whole length of the enlarged canal will, when done, be about

360 miles, instead of 363; and taking each pair of locks as one rise, or fall, the number of locks will be 71, instead of 84. This saving of lockage, is effected among the short levels, the long ones remaining essentially as before.

The cost of the enlargement is estimated at about $23,000,000. The boats chiefly employed for transportation on the original canal, average about 55 to 60 tons. The enlarged canal will accommodate boats of the capacity of 150 to 200 tons; and as the cost of towing will be increased in a much smaller ratio than that of the tonnage, the price of freights will be very materially diminished. This diminution is estimated at about 50 per cent.

CHAMPLAIN CANAL.

This Canal connects with Lake Champlain at Whitehall, and with the Hudson River at Waterford. It was commenced in October, 1817, and completed in November, 1819, at a cost of $1,179,872. It is 66 miles long; of the same dimensions in other respects as the original Erie Canal, with a total quantity of 188 feet of lockage, and 21 locks, of which 54 feet distributed in 7 locks include the rise from the lake to the summit level, extending from Fort Ann to Fort Edward, and 134 feet distributed in 14 locks include the descent to the Hudson at Waterford.

On its summit level this canal receives a navigable feeder 12 miles long, drawing its supply from the Hudson at a point about 2 miles above Glenn's Falls, and called the Glenn's Falls Feeder.

At Waterford, where the canal unites with the Hudson, the river is converted into a spacious basin 3 miles long, by means of a dam situated at the northern limit of Troy, and at the easterly end of which is a sloop-lock, by which the navigation of the Hudson is preserved to Waterford. From Waterford, also, a canal called the Junction Canal, 3 miles long, and crossing the Mohawk a little below the Cohoes Falls, connects with the Erie Canal at Cohoes village; thus completing the links that unite the northern and western trade with each other, and with that of the Hudson.

CHENANGO CANAL.

This Canal extends from the Erie Canal at Utica, by way of the village of Clinton, on the Oriskany Creek; thence up the valley of that creek to the summit level; thence to the valley of the Chenango River, which it follows to the village of Binghamton, on the Susquehannah, where it connects with the New York and Erie Railroad. It is 97 miles long; was commenced in 1833 and finished in 1837, at a cost of $1,737,703. The lockage from Utica to the summit is 706 feet, and thence to Binghamton, 303 feet, the whole divided among 116 lift-locks, 2 of which are built of stone, and the other 114 of wood and stone called composite. This canal is furnished with 7 reservoirs, consisting of natural ponds, having their original capacity increased by embankments and dams furnished with flumes and gates to regulate the discharge.

OSWEGO CANAL.

This Canal, connecting with the Erie Canal at Syracuse, and with Lake Ontario at Oswego, was commenced in 1826, and completed in 1828, at a cost of $525,115. It is 38 miles long; about half its length, however, being in the Oswego River, converted into canal or slack-water, by means of 8 dams and a tow-path on the river bank. The total quantity of lockage is 123 feet, distributed among 18 lift-locks, all descending from Syracuse to Oswego. So far as the canal is wholly an excavated work, the dimensions of its cross-section are the same as those of the old Erie Canal.

There is, also, a towing-path made by the State along the bank of the Seneca River, from its junction with this canal to Baldwinsville, by which

the navigable waters of that stream are made available; and a similar work has been recently done on the Oneida River, to connect the navigable waters of that stream and the Oneida Lake with the Oswego Canal.

CAYUGA AND SENECA CANAL.

This work begins in the village of Geneva at the outlet of the Seneca Lake, and following the valley of the Seneca River, is fed by its waters, till after sending off a side-cut of two miles to the Cayuga Lake, at East Cayuga, it enters the bed of the river, and so continues to Montezuma, where it joins the Erie Canal on the marsh level. The whole distance from Geneva to Montezuma is 21 miles, about half of which consists of canal proper, and the other half of slack-water navigation in the river. The whole descent from Geneva to Montezuma is 74 feet, divided among 12 locks. The canal was commenced in 1827 and finished in 1829, at the cost of $214,000. This work, be it remembered is the common thoroughfare for the trade of the Cayuga, Seneca, and Crooked Lakes, the Chemung Canal, the Owego and the Blossburg railroads, and the whole basin of the Upper Susquehannah, and its wide-reaching tributaries; and it is obviously destined to become at no distant day very productive, from the carriage of coal, gypsum, and salt, and the inevitable expansion of a trade springing from such resources.

CROOKED LAKE CANAL.

This Canal, commenced in 1830, and finished in 1833, connects Crooked Lake, near Penn-Yan, with the Seneca Lake at Dresden; is 8 miles long, has a descent of 269 feet, distributed among 28 lift-locks, and cost $137,000.

CHEMUNG CANAL.

This Canal, commenced in 1830 and finished in 1833, connects the Seneca Lake, at its head, with the Chemung River, a branch of the Susquehannah, at Elmira, is 23 miles long, besides a navigable feeder 16 miles long, extending from the summit level at the village of Horse-Heads, to Corning, situate also on the Chemung, westerly from Elmira, and there connecting with the railroad which runs to Blossburg, in Pennsylvania. It also connects with the New York and Erie Railroad at Elmira. The ascending and descending lockage on both the canal and feeder, which together are 39 miles long, is 516 feet, divided among 52 locks. Both works cost $344,000. At Blossburg is an inexhaustible mine of bituminous coal, of excellent quality, and the coal trade which has commenced very favorably, promises to become a source of much revenue to this canal.

GENESEE VALLEY CANAL.

The act for building this Canal was passed May 6, 1836, and in the succeeding summer the work was commenced. The whole line, from Rochester, where it connects with the Erie Canal, to Olean, on the navigable waters of the Allegany River, is 108 miles long. At a point 4½ miles south of Mount Morris, a branch canal extends to Dansville, 11 miles.

The Dansville branch and that portion of the main line between Rochester and the junction, making together 52 miles, was completed and brought into use in the fall of 1840; 36 miles more of the main line extending from the junction to Oramel, including the Genesee River feeder at the latter place, was completed and brought into use in 1851; 2 miles more, extending to Belfast, in 1853; 3 miles more, extending thence to Rockville, in 1854; and 24 miles more, extending thence to Olean basin in the village of Olean, was so far completed that it was brought into use in the fall of 1856, making 117 miles which have been in use since that time.

The work remaining to be done to complete this canal so far as at present contemplated, consists of one section, 2 lift locks, 2 bridges and one reservoir. The section is about one mile in length, extending from Olean Basin to the Allegany River; on it are located the locks and bridges above mentioned. Some work has been done on the section, and a small amount on one of the locks. The reservoir, which is known as Oil Creek reservoir, is located on the summit level, two miles north of Cuba and about half a mile west of the canal.

BLACK RIVER CANAL AND ERIE CANAL FEEDER.

This work was commenced under an act of April 19, 1836, in the summer of that year. It is to open the navigation from the Erie Canal at Rome, to Carthage, in Jefferson County. From Rome the line passes up the valley of the Mohawk to the Lansing-Kill, which it follows to the summit level in Boonville, and then passes on to the High Falls in the Black River, in Turin. From that point to Carthage the navigation is to be continued by improving the Black River. The length of the canal is 35 miles; of the improved river navigation, 42½ miles; and a navigable feeder 12 miles long, from the Black River, is to enter the summit level of the canal at Boonville, making the whole length of this artificial navigation 103½ miles.

The ascent from the Erie Canal at Rome to the summit in Boonville is 697 feet, divided among 70 locks; and the descent from the summit to the High Falls is 387 feet, divided among 38 locks. The feeder has but one level.

BLACK RIVER CANAL.

Main line of Black River Canal	35.62 miles.
Navigable Feeders	12.48 do.
Improvements of Black River	42.50 do.
Reservoirs	12.95 do.
Total	103.55 do.

ONEIDA LAKE CANAL AND FEEDER.

The Oneida Lake Canal extends from the Erie Canal, at Higgins', 3.75 miles, to Wood Creek, and thence by slack-water in that creek, 2.25 miles, to Oneida Lake, making the whole work 6 miles long. It was purchased, with the Feeder and all other appurtenances, of an incorporated company, by the Canal Commissioners, thereto empowered by an act of the Legislature passed May 11th, 1840. The price paid to the company was $50,000—for which a stock certificate, bearing 5 per cent. interest, was issued on behalf of the State, dated April 12th, 1841; and the same day the State took possession of the work and its appurtenances.

The Feeder is a work entirely distinct from the Canal, and independent of it, running from the Oneida Creek, 2 miles to the Erie Canal, with which it unites at a point about five miles west of the junction therewith of the Oneida Lake Canal.

WORKING DIVISIONS OF THE CANALS.

The Canals of the State and improvements connected therewith, are now divided into three principal Divisions, each of which is under the direct supervision of one of the Canal Commissioners, and one division engineer.

The Eastern Division embraces Albany Basin and the Erie Canal, from Albany to Oneida Lake Canal, a distance of ..... 134.35 miles.

The Champlain Canal and Glenn's Falls Feeder	78	do.
Black River Canal and Improvement	90.60	do.
Reservoirs connected therewith	12.95	do.
Total	315.90	

The Middle Division embraces the Erie Canal from Oneida Lake Canal to the east line of Wayne County ..... 68.58 miles.

The Chenango Canal	97	do.
Oneida Lake Canal	6	do.
Oswego Canal	38	do.
Baldwinsville side-cut	1	do.
Oneida River Improvement	20	do.
Seneca River towing-path	5	do.
Cayuga and Seneca Canal	22.77	do.
Crooked Lake Canal	8	do.
Chemung Canal and Feeder	39	do.
Navigable feeders	3.35	do.
Cayuga inlet	2	do.
Total	310.70	

The Western Division embraces the Erie Canal from the east line of Wayne County to Buffalo ..... 155 miles.

The Genesee Valley Canal, including the Dansville side-cut	118	do.
Total	273	

Making the whole length of the canals and public works of the State 899.60 miles, exclusive of the authorized extension of the Genesee Valley Canal, which will add about seven miles to its length.

STATEMENT OF THE AMOUNT OF WORK ALREADY DONE, AND ESTIMATED COST OF COMPLETING THE WORKS AUTHORIZED BY THE CONSTITUTION.

The amount estimated for work done, engineering, land damages, etc., upon the enlargement and other works authorized by the Constitution, from December 31, 1853, to December 31, 1856, was $9,174,909 80

The amount estimated on the same account during the past year was 2,862,923 07

The estimated amount of work to be done and payments to be made for engineering, land damages, etc., from and after this date is as follows:

Erie Canal Enlargement	$1,743,964 58	
Oswego Canal	448,027 37	
Cayuga and Seneca Canal	161,677 24	
Black River Canal	97,135 00	
Genesee Valley Canal	109,212 10	
Locks on the Champlain Canal	129,180 00	
Engineering	209,919 00	
Land damages	467,829 62	
Add for contingencies	345,222 22	
		3,712,167 13
		$15,750,000 00

ESTIMATED COST OF FINISHING THE STATE CANALS.

Extract from the State Engineer's Report, dated Albany, Mar. 24, 1858.

The estimated "amount of money necessary to complete the unfinished Canals," from January 1st, 1858, is as follows:

1st.—Enlargement of the Erie Canal.

Work remaining to be done on existing contracts	$1,403,183 28	
Work not under contract	362,391 10	
Engineering and land damages	550,000 00	
	$2,315,574 38	
Add 20 per cent. for contingencies	463,114 87	
Add per centage retained to Dec. 31, 1857	643,042 00	
Total amount necessary to complete the Erie Canal		$3,421,731 25

2d.—Enlargement of the Oswego Canal

Work remaining to be done on existing contracts	$448,027 87	
Engineering and land damages	80,000 00	
	$528,027 37	
Add 20 per cent. for contingencies	105,605 47	
Add per centage retained to Dec. 31, 1857	80,404 91	
Total amount necessary to complete the Oswego Canal		714,037 75

3d.—Enlargement of the Cayuga and Seneca Canal.

Work remaining to be done on existing contracts	$161,677 24	
Engineering and land damages	60,000 00	
	$221,677 24	
Add 20 per cent. for contingencies	44,335 44	
Add per centage retained to Dec. 31, 1857	58,323 76	
Total amount necessary to complete the Cayuga and Seneca Canal		324,836 44

4th.—Black River Canal.

Work remaining to be done on existing contracts	$97,135 00	
Engineering and land damages	40,000 00	
	$137,135 00	
Add 20 per cent. for contingencies	27,427 00	
Add per centage retained to Dec. 31, 1857	19,210 50	
Total amount necessary to complete the Black River Canal		183,772 50

5th.—GENESEE VALLEY CANAL.

Work remaining to be done on existing contracts	$41,811 00	
Engineering and land damages	30,000 00	
	$71,811 00	
Add 20 per cent. for contingencies	14,362 20	
Add per centage retained to Dec. 31, 1857	9,177 00	
Total amount necessary to complete the Genesee Valley Canal		$95,350 20

6th.—ENLARGEMENT OF LOCKS ON CHAMPLAIN CANAL.

Work remaining to be done on existing contracts	$24,480 00	
Work not under contract	104,700 00	
Engineering and land damages	30,000 00	
	$159,180 00	
Add 20 per cent. for contingencies	31,836 00	
Add per centage retained to Dec. 31, 1857	25,533 00	
Total amount necessary to complete the Champlain Canal		216,540 00
Total amount necessary to complete unfinished Canals		$4,955,777 14

It appears from the above estimates that the amount of money necessary to complete the unfinished canals is *four millions, nine hundred and fifty-five thousand seven hundred and seventy-seven* 14-100 *dollars.*

DELAWARE AND HUDSON CANAL.

OFFICE, 29 WILLIAM STREET, NEW YORK.

This work belongs to an incorporated company, chartered by the States of New York and Pennsylvania, and is too important in its connection with internal trade not to be noticed. The work was commenced in 1825, and finished in 1829, extending from the Hudson River up the valley of the Rondout Creek, in Ulster; then across parts of Orange and Sullivan counties, to the Delaware River; then along its bank, in all 84 miles, when it crosses to the valley of the Lackawaxen Creek, in Pennsylvania, up which it runs 24 miles to Honesdale, where it meets a railroad, running 16½ miles to the mining village of Carbondale, making the entire route 124½ miles. The work was constructed by the Delaware and Hudson Canal Company; the entire cost of which was $6,156,000. The capital of this company, as originally incorporated, was $1,500,000, with the right to increase its amount from time to time, as business might require, and with the privilege of employing one third thereof for banking purposes, till 1844, when this privilege expired; present capital $7,500,000.

This company is extensively engaged in mining and bringing to the New York market Lackawanna coal, constantly employing a large number of boats and men.

* The *St. Clair Flats*, which have to be passed by all large steamers and sail vessels running from Lake Erie to the Upper Lakes, now affords only eight or ten feet of water, the channel being very narrow and intricate. An appropriation, however, has recently been made by the government of the United States for improving the channel through the St. Clair Flats, which, no doubt, will effectually remove the obstruction to navigation.

New York and Erie Railroad Company.—Office, Erie Place, foot of Duane Street, New York.

This Company was incorporated April 24, 1832, with a capital of $10,000.000. Shares 100 dollars each. It extends from Jersey City, opposite the city of New York, to Dunkirk, situated on Lake Erie, 40 miles south of Buffalo. It is 460 miles in length, with a branch road from Chester to Newburgh, Orange County, 19 miles in length, and a branch terminus at Piermont, 24 miles north of New York, 18 miles in length—making a total of 502 miles, broad guage. In addition to the through travel, from the city of New York westward, it commands the travel and business of a large section of country bordering on the States of New York and Pennsylvania, making it one of the most important thoroughfares in the Union. The total cost of this road, equipments, etc., to September 30, 1857, amounted to $39,081,468. It was finished in May, 1851, and runs through the counties of Rockland, Orange, (part of Pennsylvania), Sullivan, Delaware, Broome, Tioga, Chemung, Steuben, Allegany, Cattaraugus, and Chautauque to Lake Erie, thus uniting, by one direct route, the Atlantic with the great lakes of America—passing through a section of country justly celebrated for its grand and picturesque beauties. Its connections are numerous and important, affording facilities for almost any required amount of transportation.

The New York and Erie Railroad forms one of the four great lines of road, reaching from the sea-board to the great lakes and the Ohio River. The Pennsylvania Railroad, and Baltimore and Ohio Railroad, as well as the New York Central Railroad all being competing lines of travel, connecting with a system of railroads traversing the valley of the Mississippi, from the lakes to the Gulf of Mexico. Charles Moran, President, New York.

Nathaniel Marsh, Secretary. Herman Gelpoke, Treasurer.

H. Riddle, Superintendent, Port Jervis, N. Y.

J. A. Hart, Superintendent, Hornellsville, N. Y.

New York and Harlem Railroad.—Office, 4th Avenue, cor. 26th Street.

Incorporated April 25, 1831, since amended by Acts of the Legislature. This road extends from the city of New York to Chatham Four Corners, Columbia County, a distance of 130¾ miles, running through Westchester, Putnam, and Dutchess counties into Columbia County, where it unites with the Albany and West Stockbridge Railroad, 22 miles distant from East Albany. The present paid capital is $5,717,100, and can be increased to $8,000,000. Cost of construction, $10,128,765

This road forms a through line of travel from the city of New York to Albany and Troy, and in connection with other roads a through line of travel to Montreal and Quebec.

Allan Campbell, President. William C. Wetmore, Vice-President.

Wm. H. Emerson, Secretary. William A. Whitehead, Treasurer.

William J. Campbell, Superintendent, New York.

New York and New Haven Railroad.—Office, No. 1 Hanover Street, New York.

Incorporated in 1844, by the Legislature of the State of Connecticut, and in May, 1846, the Legislature of the State of New York gave permission to this company to extend their road into the State and to the city of New York. The road proper is 62¼ miles in length, extending from the city of New Haven to the Bronx River, near Williams' Bridge, 14 miles from the city of New York. At Williams' Bridge, this road forms a junction with the New York and Harlem Railroad track, over which the cars run to the depôt on the Fourth Avenue in New York, under a permanent agreement with the

above company. The whole distancetraversed by the cars is 76 miles; 62 miles of this is double track. Length of road in Connecticut, 47 miles, and in the State of New York, 15 miles. At Norwalk, Conn., it connects with the Danbury and Norwalk Railroad; at Bridgeport, with the Housatonic and Naugatuck Railroad; at New Haven, with the Hartford and Springfield Railroad, and the New London Railroad; also, with the Canal Road, extending northerly to Northampton, Mass. This road forms an important link in the great sea-board line of railroads extending from Maine to Georgia —passing through Boston, New York, Philadelphia, Baltimore, Washington, etc. Capital, $3,000,000; cost of construction, etc., $5,483,221; being upward of $80,000 per mile.

J. R. Bulkley, President, New York. William Bement, Treasurer.
E. S. Abernethy, Secretary. James H. Hoyt, Superintendent.

New York City Railroads.

Second Avenue Railroad, 9 miles in length, extends from Peck Slip to Harlem, running through the Bowery and Grand Street, thence into the Second and First Avenues. Cost, $426,323.

Denton Pearsall, President. Philip C. Rogers, Secretary.

Third Avenue Railroad, 5½ miles in length. Extends from the Park, on Broadway, to 86th Street, running through the Bowery and Third Avenue to Yorkville. Office, Third Avenue, corner East 61st Street. Cost of construction, etc., $1,170,000.

Wm. A. Darling, President. Amory Edwards, Secretary and Treasurer.

Fourth Avenue Railroad runs from the Park, on Broadway, to 32d Street. This road is part of the New York and Harlem Railroad, extending north through Westchester County.

Sixth Avenue Railroad, 4 miles in length, extends from Vesey Street, corner of Broadway, to 43d Street, with a branch through Canal Street to Broadway. Cost, $823,654. Office, Sixth Avenue, corner of 44th Street.

Sidney Mason, President. T. Bailey Myers, Secretary.

Eighth Avenue Railroad, 4¾ miles in length, extends from Vesey Street, corner Broadway, to 59th Street. Office, corner Eighth Avenue and 49th Street. Cost, $800,000.

Oswego and Syracuse Railroad.—Office in the City of Oswego, N. Y.

This Company was incorporated in 1839, with a capital of $500,000; completed in 1848. The road runs from Syracuse, where it forms a junction with the New York Central Railroad, and Syracuse, Binghamton and New York Railroad to the city of Oswego, situated on Lake Ontario. The track extends along the west side of Onondaga Lake, crossing Seneca River near Baldwinsville; from thence it runs north on the west side of Seneca River, to Oswego; forming in part a through line of travel from Lake Ontario to the cities of Boston and New York. Length of road, 36 miles. Total cost, $741,618.

F. T. Carrington, President, Oswego. Luther Wright, Treasurer.
George Skinner, Superintendent, Syracuse.

Syracuse, Binghamton and New York Railroad.—Office in Syracuse, N. Y.

Organized under the General Railroad Law in 1848, and completed in October, 1854. This road extends from Syracuse to Binghamton, running

through the counties of Onondaga, Cortland, and Broome. It connects on the north with the Oswego and Syracuse, and New York Central Railroad, at Syracuse; and with the New York and Erie, and Delaware, Lackawanna and Western Railroad on the south; thus forming, in part, a through line of travel from Lake Ontario to the city of New York, and the coal-fields of Pennsylvania. Length, 81 miles, broad guage. Capital paid in, $768,369; cost of construction, $2,600,000.

J. M. Schermerhorn, Homer, Pres. E. B. Wicks, Syracuse, Treas.
C. F. Paige, Secretary and Superintendent, Syracuse.

Rochester and Genesee Valley Railroad.—Office in Rochester.

Organized in 1852. Capital, $1,000,000. This road was completed from Rochester to Avon, in Livingston County, in August, 1855, a distance of 18 miles, connecting with the Buffalo, New York and Erie Railroad, forming a through route of travel from Rochester to the cities of New York, Philadelphia, etc. From Avon this road is nearly completed to Mount Morris, 18 miles farther, and will extend south toward the Pennsylvania State Line, and connect with the Alleghany Valley Railroad, now building from Pittsburgh northward, forming a through line of travel from Rochester, or Lake Ontario, to the navigable waters of the Ohio River at Pittsburgh, a total distance of about 200 miles.

Jas. S. Wadsworth, President, Genesee.
Isaac Hills, Secretary and Treasurer, Rochester.

Rensselaer and Saratoga Railroad.—Office in the Union Depôt, Troy, N. Y.

Incorporated in 1832, with a capital of $600,000; extends from the city of Troy to the village of Ballston Spa, 25 miles. It crosses the Hudson River at Troy, by means of a substantial bridge, about 1,600 feet long; then crosses several branches of the Mohawk below the village of Waterford. It was finished and put in operation August, 1835. Total cost to September 30, 1857, $900,000. This road, in connection with the Saratoga and Schenectady, and Saratoga and Whitehall Railroads, forms a through line of travel from Albany and Troy to Saratoga Springs, Whitehall, Rutland, and Montreal, on the north; also to Boston, on the east.

Edmund Shriver, President, Troy.
Levi H. Tupper, Superintendent, Troy.

Saratoga and Schenectady Railroad.—Office in Troy, N. Y.

Incorporated in 1831, with a capital of $300,000. Extends from the city of Schenectady to the village of Saratoga Springs, 22 miles. Finished in 1832, at a cost of $480,000. This road unites at Schenectady with the New York Central Railroad, and Saratoga Springs with the Saratoga and Whitehall Railroad, forming a through line of travel from Albany and Schenectady to Vermont and Canada. Leased and run by the Rensselaer and Saratoga Railroad Company.

Saratoga and Whitehall Railroad Company.—Office in the village of Saratoga Springs.

Chartered in 1834, for 50 years. Capital, $900,000. Shares, $100 each. This road extends from the village of Saratoga Springs to Whitehall, at the head of Lake Champlain, there connecting with steamboat navigation. Length, 41 miles. A branch road runs from Whitehall to the New York State Line, 7 miles, connecting with the RUTLAND AND WHITEHALL

RAILROAD, of Vermont, extending 7 miles farther to Castleton. The latter road unites with the RUTLAND AND WASHINGTON RAILROAD, running from Eagle Bridge to Rutland, Vt., where it intersects the great line of railroads running from Boston to Burlington, Vt.; thus forming, with other roads, a continuous line of travel from Montreal to Boston and New York.

John M. Davison, President and Superintendent, Saratoga Springs.

Troy and Boston Railroad.—Office, Union Depôt, Troy, N. Y.

This Company was organized under the General Railroad Law of 1850, with a capital of $1,000,000, of which $531,492 is paid in. The road commences at the Union Depôt, Troy, and runs through the county of Rensselaer, connecting with the Rutland and Washington Railroad at Eagle Bridge, 23 miles north of Troy, and at the State Line, 30 miles, with the Western Vermont Railroad, now forming, in part, a through line of travel to Boston and Montreal, *via* Rutland, Vt. From Hoosick Falls, eastward, this road will extend into the State of Massachusetts, passing through a tunnel four miles in length, terminating at Greenfield, Mass., a distance of about 100 miles from the city of Troy. It will here connect with a direct line of railroads running to Boston, 200 miles, and also with other railroads running up and down the valley of the Connecticut River. Length of road finished Jan., 1858, 34½ miles. Cost of construction, etc., $1,251,282.

D. T. Vail, President, Troy, N. Y.
Isaac V. Baker, Superintendent, Troy.

Northern (Ogdensburgh) Railroad.

This road was incorporated May, 1845, with a capital of $2,000,000. It extends from Ogdensburgh, situated on the St. Lawrence River, to Rouse's Point, at the foot of Lake Champlain, and is 118 miles in length, running through the counties of St. Lawrence, Franklin and Clinton. This road runs through a fertile section of country, and connects at Mooers Junction with the Plattsburgh and Montreal Railroad, and at Rouse's Point with the Champlain and St. Lawrence Railroad, running to Montreal, and with the Vermont and Canada Railroad, forming, in connection with other roads, a through line of travel to the cities of Boston and New York. Cost of construction, etc., $4,734,208.

Wm. A. Wheeler, President, Boston, Mass.
Geo. V. Hoyle, Superintendent, Ogdensburgh.
S. C. F. Thorndike, Treasurer, Malone, N. Y.

Plattsburgh and Montreal Railroad.—Office in Plattsburgh, N. Y.

This road, in connection with the *Montreal and New York Railroad*, of Canada, forms a through line of travel from Montreal to Plattsburgh, etc. Distance from Plattsburgh to Canada line, 23 miles; total distance to Caughnawaga, Can., 52 miles. The line of travel is continued by means of a ferry across the St. Lawrence River to Lachine, and thence to Montreal, a total distance of 62 miles. At Mooers, in Clinton County, N. Y., a junction is formed with the Northern or Ogdensburgh Railroad. This road forms in part a through line of travel from Montreal to New York, etc.

M. K. Platt, Lessee, Plattsburgh, N. Y.
F E. Parker, Superintendent, Plattsburgh.

Potsdam and Watertown Railroad.—Office in Watertown, N. Y.

This road extends from Watertown, Jefferson County, and runs in a northerly direction to Potsdam Junction, St. Lawrence County, connecting

with the Northern Railroad at the latter station. Length, 76 miles. Capital, $573,905. Cost of construction, etc., to Sept. 30, 1857, $1,369,380.

Edwin Dodge, President, Gouverneur, N. Y.
Daniel Lee, President, Watertown.
George B. Phelps, Superintendent, Watertown.

Watertown and Rome Railroad.—Office in Watertown, N. Y.

Incorporated in 1845, with a capital of $1,500,000. Length, 97 miles. Cost of construction, etc., $2,096,713. This road extends from Rome, Oneida County, where it forms a junction with the New York Central Railroad, and runs through Oswego and Jefferson counties to Cape Vincent, situated on the St. Lawrence River, opposite to Kingston, Can. At Pierrepont Manor it connects with the *Sacket's Harbor and Ellisburgh Railroad*. It forms an important link in the chain of railroads extending from the city of New York to the northwestern part of the State and the Canadas, running through Watertown and several other flourishing towns and villages.

Wm. C. Pierrepont, President. Pierrepont Manor, N. Y.
Carlos Dutton, Superintendent, Watertown, N. Y.
R. E. Hungerford, Secretary and Treasurer, Watertown.
G. B. Benjamin, Agent, 197 Broadway, New York City.

THE CHAMBER OF COMMERCE.

(Located corner William and Cedar streets.)

This institution, first chartered in 1770, under the reign of George the Third, King of England, was confirmed and amended by act of the Legislature of the State of New York, April 13, 1784.

"The advantages to the public arising from the establishment of this body are very obvious. To the commercial community, especially, the benefits are large, and every year these results are becoming greater. There is one point, however, which the Chamber have overlooked, one which claims their especial attention, viz., an annual report upon the Commerce of the City and of the State. The Chamber of Commerce is not merely a City institution; it was chartered as a *State 'Chamber of Commerce,'* and *as such*, it becomes, to a certain extent, an exponent of the

commerce of the Empire State, and should furnish to our citizens, far and wide, an able and comprehensive *resumé* of the commercial operations of the year.

"The Chamber of Commerce is known to comprise a large number of our most influential and well-informed merchants. It includes public-spirited men, educated and intelligent, engaged in the various branches of trade and manufactures. But to the members of that body, and to the merchants at large, *the Commerce of New York is a sealed book.* We at present have no annual exhibit of its details or of its aggregates, beyond those disjointed tabular statements contained in the Treasury Reports to Congress, or in the weekly Price Current of the City. These subjects are, however, of such vast importance, not merely to our City and State, but to the country at large, that they deserve to be condensed into a volume or pamphlet annually, and thus brought clearly to the view of all business men. There is no better nor more appropriate medium for the dissemination of such information than the New York Chamber of Commerce. A '*Library of Reference*' is about being established, which will add much to the usefulness of this institution."

[NOTE.—The Collins' Line of Steamers have temporarily ceased running; the mail service is performed by other steamers.—ED.]

Important Instructions.

The single rate of Letter Postage *by either of the above lines* (and the same in respect to the British lines), to or from any point in the United States (except Oregon and California), for or from any point in Great Britain, is 24 cents—*prepayment optional.* Newspapers, each two cents

United States, and two cents British; each country to collect *its own postage*, whether the paper is sent *from* or received *in* the United States. [British newspapers usually come *British* postage paid by a penny stamp, equal to two cents.] They must be sent in narrow bands, open at the ends. Letters for the continent of Europe, to pass *through* Great Britain, in the *open* mail, must be prepaid 21 cents when the Atlantic conveyance is by United States packets, and 5 cents when by British packets, except from California or Oregon, when the sum to be prepaid is, in the former instance, 26 cents, and in the latter, 10 cents. Thus, in the one case, the Atlantic sea postage is to be collected at the mailing office, in the United States; and in the other, left to be collected, together with the British transit and other foreign postage, at the office of delivery. Between Great Britain and Oregon and California, the single rate of letter postage is 29 cents.

Periodical works and pamphlets may be sent from the United States to the United Kingdom, and *vice versa*, at two cents of United States postage each, if they do not exceed two ounces in weight, and at 4 cents per ounce, or fraction of an ounce, when they exceed that weight; to be collected in all cases in the United States; and the same will be subject to an additional like charge in the United Kingdom. When sent to France, Algeria, or cities in Turkey, Syria, and Egypt, in which France has post-offices, *via England*, or to other foreign countries, *without passing through the United Kingdom*, they will be chargeable with 1 cent an ounce, or fraction of an ounce, United States postage—*prepayment required.*

Single rate of letter postage to or from Bremen, *by the Bremen line*, 10 cents—*prepayment optional.* Newspapers, each 3 cents, being the United States and German postage—*prepayment required.* Letters and newspapers to other parts of the Continent may also go by this line, subject to various rates; for which see Foreign Postage Table.

Single rate of letter postage by the Prussian *closed* mail to Prussia, Austria, and all the other German States, 30 cents, being the full postage—*prepayment optional.* Newspapers, 6 cents each, being also the *full* postage—*prepayment required.* This mail is sent by every steamer, being landed at Liverpool by the Collins, and at Southampton by the Bremen lines.

The system of registration of valuable letters adopted in the United States has been extended to the correspondence with Great Britain, Prussia, Bremen, and Canada. Letters addressed to either of those countries will be *registered*, on the application of the person posting the same, in the same manner and on the same terms as those deliverable in the United States, *provided* that the full postage chargeable to destination, together with *a registration fee of five cents on each letter*, is prepaid at the mailing office. Such letters should be mailed and forwarded to the respective United States exchange offices in the same manner as domestic registered letters are mailed.

N. B.—All letters to and from foreign countries (the British North American Provinces excepted) are to be charged with single rate of postage, if not exceeding the weight of half an ounce; double rate, if exceeding half an ounce but not exceeding an ounce; quadruple rate, if exceeding an ounce but not exceeding two ounces; and so on, charging *two rates* for every ounce or fractional part of an ounce over the first ounce. Letters in the mail to France are to be charged with single rate of postage, if not exceeding the weight of one quarter ounce; double rate, if exceeding a quarter but not exceeding half an ounce; and so on, an additional rate being charged for each quarter ounce or fractional part of a quarter ounce. Letters addressed to the British North American Provinces are rated in the same manner as domestic letters, one rate being charged for each half ounce, or fractional part of half an ounce. Postmasters should be careful, where the postage is prepaid, to collect the proper amount. They should be particular

to notice the *route indicated* on the envelopes of letters, and to collect postage accordingly. Letters mailed at some offices, marked "*via England*," or "*via Prussian Closed Mail*," for a German State, are frequently taken upon the prepayment of Bremen rates, and those marked "*via Bremen*" at Prussian closed mail rates, etc. Refer in all cases to the Postage Tables.

If letters for foreign countries, marked "Paid," are dropped into the post-office without being paid, the postmaster will erase the word "Paid," and write on the back of the letter the words "*Not paid*," with his name and title of postmaster.

The mails for the Pacific leave New York on the 5th and 20th, Charleston and Savannah on the 4th and 19th, and New Orleans on the 5th and 20th of each month.

Mails for Mexico will be dispatched semi-monthly by steamship between New Orleans and Vera Cruz. United States letter postage, 10 cents under 2,500 and 20 cents over 2,500 miles from the mailing office; to be prepaid when sent from and collected when received in the United States. Newspapers, 2 cents each, to be collected in the United States, as above.

Single rate of letter postage to Havana, Aspinwall, Panama, and the British West Indies, 10 cents under 2,500 and 20 cents over 2,500 miles; newspapers, 2 cents; and to West Indies (not British), Carthagena, Honduras, and St. Juan (Nicaragua), 34 cents under 2,500 and 44 cents over 2,500 miles; newspapers, 6 cents each—*prepayment required.*

AARON V. BROWN, Postmaster-General.

UNITED STATES MAIL STEAMERS,

RUNNING BETWEEN NEW YORK AND ASPINWALL, N. G., CONNECTING WITH LINES OF STEAMERS ON THE PACIFIC, AT PANAMA.

ISTHMUS MAILS AND STEAMERS.

UNITED STATES Mail Steamers, leaving New York the 5th and 20th of each month, arrive at Aspinwall from New York and New Orleans on or about the 15th and 30th of every month.—J. W. Bourn, *Agent*, Aspinwall.

Pacific Mail Steamship Company's Steamers from California, leaving San Francisco the 5th and 20th of each month, are due at Panama on or about the 3d and 18th of every month.—Allan McLane, *Agent*, Panama. Forbes & Babcock, *Agents*, San Francisco, Cal.

United States Mail Steamers for New York and New Orleans, *via* Havana, leave Aspinwall about the 4th and 19th of every month.

Pacific Mail Steamship Company's Steamers for California leave Panama on or about the 15th and 30th of every month, connecting with steamers running to ports in Oregon and Washington Territory.

Pacific Steam Navigation Company's Steamers from Valparaiso, Callao, etc., arrive at Panama on or about the 6th and 21st of every month, and sail for Callao, Valparaiso, and intermediate ports on the 15th and 30th of every month.—J. J. Icaza, *Agent*, Panama.

Royal West India Mail Steamers from England, *via* St. Thomas, Carthagena, etc., arrive at Aspinwall on or about the 8th and 24th of every month, and sail for England, *via* Carthagena, St. Thomas, etc., on the same date.—Wm. Perry, *Agent*, Panama. Hurtado & Hermanos, *Agents*, Aspinwall.

Panama Railroad Company's U. S. Mail Steamer leaves Panama, for the principal ports of Central America, on or about the 17th of every month, and arrives at Panama on or about the 10th of every month.—Wm. Nelson, *Agent*, Panama R. R. Depot.

☞ All goods forwarded by the Panama Railroad vessels or United States Mail Line can be shipped to any ports on the Pacific, and *vice versa*, on through bills of lading, without commissions or extra charges on the Isthmus; thus giving to shippers advantages which must finally result in the concentration on this "great highway of nations" of the commerce of both the Atlantic and Pacific sides; and which, when the Australian Line will be established, will make this place the key of the commerce of the world.

ENGLISH STEAMERS.

There are two lines of English steamers—one running on the Atlantic, and the other on the Pacific side.

On the Atlantic side, the Royal West India Mail Steamers from England, *via* St. Thomas, Carthagena, etc., arrive at Aspinwall on or about the 8th and 24th of every month, and sail for England, *via* Carthagena, St. Thomas, etc., on the same day. The price of passage from Aspinwall to the former place is $25; to the latter, $60.

The Cunard Line of Steamers, running from Liverpool to Boston and New York, together with other Steamship Lines, connect with the American steamers running from New York to Aspinwall and San Juan del Norte; at the latter port commences the Nicaragua Transit Route for California, etc.

COLLEGES.

COLUMBIA COLLEGE.—East 49th Street, New York.

This institution was incorporated by royal charter, under the name of "King's College," in 1754, and confirmed in its rights by various acts of the Legislature, especially by an act passed April 13th, 1787. It was removed, in 1857, from the beautiful situation it so long occupied (on College Place, between Murray and Barclay streets), to its present location, on East 49th Street, near 4th Avenue. The College Library contains 16,000 volumes.

The number of undergraduates is one hundred and fifty-two. The whole number of alumni to 1840 was 1,800. The commencement is to take place previous to the 4th of July, but the day is not yet fixed. There are two literary societies connected with the College, composed of students and graduates, called the *Philolexian*, founded in 1802, and the *Peithologian*, founded in 1806. The former has a library of 1,200, and the latter of 1,000 volumes.

The Grammar School of Columbia College, under the superintendence of Prof. Charles Anthon, sustains a high reputation.

THE UNIVERSITY OF THE CITY OF NEW YORK.

This institution was chartered in 1831, and opened for students the following year. A spacious edifice of white marble, in the collegiate style of architecture, fronting the east side of Washington Square, was erected for its accommodation, and contains, beside the lecture-rooms and dormitories, a large and lofty chapel, much admired for its architectural beauty. The main entrance to the building is under a great central Gothic window, 50 feet high by 24 wide, through a deep portal of stone, and a door of massive oak. This edifice was completed in 1836.

ST. JOHN'S COLLEGE.

This is a Roman Catholic institution, situated near the village of Fordham, in Westchester County, about 12 miles from the city of New York, on the line of the Harlem and New Haven Railroad. The grounds connected with it are extensive, and highly improved. The domestic duties of the establishment are confided to the Sisters of Charity. The course of study embraces the ancient and modern languages, besides the usual branches of education to qualify pupils for commercial or professional pursuits. The collegiate year begins on the first Monday in September, and ends on the 15th July. Charges, $200 per annum.

The officers and teachers are sixteen in number, all of the "Society of Jesus."

Rev. Remigius J. Tellier, S.J., President of the College

TROY UNIVERSITY.

Located in the City of Troy.

This is a new institution, being liberally founded by the friends of a higher course of study, combining a Collegiate and University education. The University buildings are situated on Mount Ida, in the rear of the city overlooking Troy, the Hudson River, and adjacent country. It is surrounded by thirty-six acres of land, which is to be properly inclosed and improved. The view from this elevated site is one of rare beauty and extent. There will be two departments in the Troy University—the *Collegiate* Department and the *University* Department. These again will be subdivided into Literary and Scientific courses; embracing the Faculty of Philosophy (or Arts), as commonly taught in Europe in the Universities or higher schools of learning. The *University* course of instruction will be adapted to those who wish to obtain a more thorough and complete culture, either with a view to teaching, to the acquisition of general scholarship, or to professional life.

PACKER COLLEGIATE INSTITUTE, BROOKLYN.

The object of this flourishing institution is to furnish to females the same advantages of education enjoyed by the other sex in colleges. It is governed by a Board of Trustees, of which the Mayor of Brooklyn is *ex-officio* a member. There are three departments—Preparatory, Academic, and Collegiate. The last is divided into two classes, Junior and Senior, and diplomas are conferred on those who have completed the course of study in this department. The Commencements take place in July, after which there is a vacation until September, when the academic year begins. The institution is provided with chemical and philosophical apparatus, and a general library for the use of the students. The ancient and modern languages are not included in the regular course of study, but may be attended to, if desired, under teachers provided by the Institute.

Faculty.

A. Crittenden, A.M., Principal.

Together with other Teachers, male and female. Whole number of pupils in 1857, 672.

BROOKLYN COLLEGIATE AND POLYTECHNIC INSTITUTE.

This institution was incorporated in April, 1854, and first opened for students in September, 1855. Its object is to afford to young men facilities for a thorough and finished education. A large and commodious edifice, erected for its use, has been elaborately fitted up, and furnished with all the necessary means and apparatus for the purpose in view, affording accommodation for about 450 pupils. The general management of the Institute rests with a Board of Trustees, elected by the stockholders. The plan of the Institute embraces two departments, Academic and Collegiate, each consisting of two classes, Senior and Junior, with further subdivisions. The course of study is to some extent optional, but is intended to include all the essentials of a classical, scientific, and commercial education.

The Faculty is composed of the President, John H. Raymond, LL.D., who is also Professor of History and Philosophy, and a corps of eighteen professors and instructors in the various branches of study pursued in the institution. The whole number of students in 1857 was 516.

FREE ACADEMY.

Lexington Avenue, corner Twenty-third Street.

Established in 1848, by pursuance of an act of the Legislature, passed May 7, 1847, for the purpose of providing higher education for such pupils of the Common Schools as may wish to avail themselves thereof. The Free Academy is under the general superintendence of the Board of Education. All its expenses for instruction, apparatus, library, cabinet collections, books, and stationery, are paid out of the public treasury. The students are admitted in annual classes, and the full course of study embraces five years.

The Board of Education is authorized by law to confer the usual collegiate degrees on the recommendation of the Faculty.

The Academical studies during Term time continue daily (except Saturday and Sunday) from a quarter before 9 o'clock A. M. to 3 o'clock P. M.

Terms of Admission.

No student can be admitted to the Academy unless he reside in the city, be thirteen years of age, shall have attended the common schools in the city twelve months, and shall pass a good examination in Spelling, Reading, Writing, English Grammar, Geography, Arithmetic, Elementary Bookkeeping, History of the United States, and Algebra, as far as simple equations, inclusive.

Students who remove from the city lose the privileges of the Academy.

The classes are annual, and the full course of study embraces five years.

Officers.

Horace Webster, LL.D., Principal. John Graff Barton, A.M., Librarian.
John Jason Owen, D.D., Vice-Princip. Joseph O. Nodyne, Registrar.

Together with an Executive Committee of six members, and the Faculty of nine members.

George J. Dougherty, Jr., M.D., Prosector to the Professor of Surgery.

John O. Bronson, M D., Assistant to the Professor of Obstetrics.

B. L. Budd, M.D., Chemical assistant.

The museum of this institution is large and valuable; it contains a set of the preparations and models in wax prepared by Towne, of Guy's Hospital, London, which finely illustrate all the exanthematous diseases; also, a set of Thibert's models, together with a large number of wet and dry preparations. This museum may be valued at $25,000. The Chemical and Philosophical Apparatus, embracing the most modern German, French, and American chemical instruments, is valued at $4,000, and belongs to Professor Doremus.

MEDICAL DEPARTMENT OF THE UNIVERSITY OF BUFFALO.

The building occupied by this medical college is a stone edifice, situated on the corner of Main and Virginia streets, in the city of Buffalo. It is fifty-four feet in width by one hundred in depth; four stories high; and contains ample and convenient rooms for dissections, museum, lectures, and all the different departments of medical instruction. The expense of its erection was chiefly defrayed by voluntary contributions of the citizens of Buffalo.

Faculty.

Charles B. Coventry, M.D., *Emeritus* Professor of Physiology and Medical Jurisprudence.

Charles A. Lee, M.D., Professor of Pathology and Materia Medica

James P. White, M.D., Professor of Obstetrics and Diseases of Women and Children.

F. H. Hamilton, M.D., Professor of Principles and Practice of Surgery and Clinical Surgery.

George Hadley, M.D., Professor of Chemistry and Pharmacy.

Thos. F. Rochester, M.D., Professor of Principles and Practice of Medicine and Clinical Medicine.

Sanford B. Hunt, M.D., Professor of General and Special Anatomy.

John Boardman, M.D., Demonstrator of Anatomy.

The professors are the attending medical officers of the Buffalo Hospital of the Sisters of Charity, capable of receiving 200 patients, situated near the college, and the students visit the hospital twice weekly in company with

the professors; ample clinical advantages are thus afforded to those attending lectures at this institution.

METROPOLITAN MEDICAL COLLEGE OF THE STATE OF NEW YORK.

NEW YORK HOSPITAL.

This institution was chartered in 1771, and is one of the oldest and most useful of the kind in this country. It occupies a spacious stone edifice with convenient grounds in the lower part of Broadway, opposite the entrance of Pearl Street; but at the time it was erected it stood in the open country, beyond the streets of the city. The general control of its affairs is vested in a board of twenty-six governors, which also exercises a supervision over the Bloomingdale Lunatic Asylum. This board appoints its own officers and fills its own vacancies.

ST. VINCENT'S HOSPITAL, NEW YORK.

St. Vincent's Hospital was opened in 1849 by the Sisters of Charity. It is now over eight years in existence, during which time it has received 4,708 patients. It is a self-sustaining institution, receiving no aid from city or State Government. Notwithstanding, the Sisters receive some 200 free patients yearly which to them appear proper objects of charity. Although the hospital is under the management of a Catholic religious order, it is open for the reception of patients of all religious denominations. It was incorporated April 13th, 1857. It has accommodation for 120 beds for patients of both sexes. The Medical officers are:

Consulting Physician, Wm. Power, M.D.; Consulting Surgeon, Valentine Mott, M.D., LL.D.; Physicians, Wm. Murray, M.D., James O'Rorke, M.D.; Thomas E. Burtsell, M.D.; Surgeons, W. H. ALBANY MEDICAL COLLEGE.

The Albany Medical College was chartered February 16, 1839. The charter empowers the trustees to confer the degree of Doctor of Medicine, on the recommendation of the faculty and of three of the curators.

The College edifice, which is of brick, three stories high, 120 feet front by 50 feet deep, is very eligibly situated in Eagle Street, at a short distance from the Capitol.

The museum contains a great number of specimens of healthy and morbid human anatomy, of comparative anatomy, of zoology, and of mineralogy. It contains, also, a full set of Dr. Thibert's beautiful models of pathological anatomy, and Dr. Auzoux's mannikins and models of healthy anatomy. It is at all times open to students, for the purposes of study.

Besides the library for reference, a collection of all the standard elementary works is set apart for the use of the students during their attendance on lectures, without any charge.

Ample opportunities are afforded for the study of practical anatomy. Saturdays are devoted to clinical instruction, and students have an opportunity of seeing a great number of cases of disease, and of witnessing surgical operations.

The fees for the entire course of lectures are $70; matriculation fee, $5; graduating, $20.

Requirements for graduation are the same as at other incorporated medical schools in this State.

The following are the names of the Faculty Professors:

Whole number of pupils, Dec. 31st, 1856: Males, 180; females, 135; total, 315. Of this number, 234 were supported by the State of New York. The great success that has attended this institution in the education of the deaf and dumb, has led to the increased patronage of the State, by means of which it has become "the first in the world in point of numbers, and is admitted to be the first also in reputation and usefulness."

NEW YORK INSTITUTION FOR THE BLIND.

This institution was incorporated in 1831. Situated on the Ninth Avenue, near 34th Street, in the city of New York. Its general control is vested in a Board of Managers, twenty in number. The officers of the Board for 1858 are the following:

Isaac Wood, M.D., President. Geo. F. Allen, Recording Secretary.
Robert Gracie, Vice-President. John P. Crosby, Corresponding Sec
Silas Brown, Treasurer.

Officers of the Institution for 1858.

T. Colden Cooper, Superintendent; Attending Physician, J. W. G. Clements, M.D.; Consulting Physicians, Isaac Wood, M.D., Edw. L. Beadle, M.D.; Consulting Surgeon, Abram Dubois, M.D. (The other officers consist of nine Teachers in the Literary Department; eight Teachers in the Musical Department, four of instrumental and four of vocal music; and seven Teachers in the Mechanical Department. Matron, Miss Mary J. Armstrong.)

The whole number of pupils, in 1857, was 186. Besides this number, there are eleven blind persons who are employed as Teachers. The studies comprise all branches of a sound English education. The monitorial system has been recently introduced with success; the more advanced students being employed as teachers of the younger. Newly-arranged maps enable the Teachers to make physical and political geography entirely intelligible to the blind. The Braille system of writing is now practiced by a number of the pupils, and is considered the best one yet devised for the use of the blind. An important improvement has been made in this system by one of the Teachers, which will render it still more generally useful.

The system of instruction at this institution is divided into three sections —Intellectual, Musical, and Industrial—and is pursued at different hours of the day. Those who have no ear or taste for music learn some useful trade, by which they can become capable of self-support. Music is also taught as a means of support, as well as a source of solace in their misfortune; and the Board testify to the success of the graduates as organists, teachers of music, and in the tuning of pianos.

THEOLOGICAL SEMINARIES.

GENERAL THEOLOGICAL SEMINARY

OF THE PROTESTANT EPISCOPAL CHURCH IN THE UNITED STATES.

This institution is situated in that part of the city of New York formerly called Chelsea, on West 20th Street, between 9th and 10th avenues, 2½ miles from the City Hall. There are two substantial edifices of stone for the accommodation of the professors and students. The Board of Trustees consists of all the bishops of the Episcopal Church, *ex officio;* one other trustee from each diocese, and an additional one for every eight clergymen in each diocese, and another for every two thousand dollars contributed, until the same amounts to ten thousand dollars, after which one for every ten thousand dollars. The affairs of the institution are managed by a standing committee, composed equally of clergymen and laymen, with a treasurer and secretary.

AUBURN THEOLOGICAL SEMINARY,

Located in the city of Auburn, Cayuga County, N. Y.

This Seminary was founded by the Synod of Geneva, in 1819. The Seminary building is one of the largest and most commodious devoted to theological instruction in the country. The institution is endowed with about $100,000, and its funds are increasing. The library consists of about 6,000 volumes. The faculty consists of

Rev. Edwin Hall, Professor of Christian Theology.

Rev. J. B. Condit, Professor of Sacred Rhetoric and Pastoral Theology.

Rev. E. A. Huntington, Professor of Biblical Criticism.

Rev. S. M. Hopkins, Professor of Ecclesiastical History and Church Polity.

The annual vacation commences on the third Wednesday in June, and continues three months.

city of New York. It has recently been greatly enlarged, and now contains a chapel, library, four lecture-rooms, and convenient private rooms and dormitories for about eighty students. The students have a boarding association in the Seminary, by means of which the price of board is not more than $2 25 per week; other expenses are proportionately small.

The library contains about 23,000 volumes, chiefly rare and valuable works, nearly three fourths of which were purchased in Germany, from the heirs of Rev. Leander Van Ess, a late distinguished theologian. The institution has a Board of Directors, composed of members of the Presbyterian Church; but the Seminary is open to students of all religious denominations. The number of students connected with it the present year (1858) is 114, including 6 resident licentiates, representing 15 States of the Union, and 25 colleges or universities.

PUBLIC LIBRARIES.

THE NEW YORK SOCIETY LIBRARY.

THE history of this institution commences in the year 1700, when "The Public Library" of New York, afterward known as "The City Library," was founded. At that period the Library was under the charge of the Corporation of the city, but, being neglected or not properly managed by the city fathers, it was committed to the care of an association, formed in 1754, by which a Board of Trustees was chosen, under whose care the Library assumed a new aspect and rapidly increased. In 1772 a charter was obtained from the crown, constituting the members of the association a body corporate, under the name and style of "*The Trustees of the Society*

* The celebrated author of "Travels in Palestine," etc.

Library." The petitioners named in the preamble of the charter were John Watts, William Smith, Robert R. Livingston, Whitehead Hicks, William Livingston, Goldsboro' Banyar, and Samuel Jones, Esquires; Peter Van Brugh Livingston and Peter Ketteltas, Merchants; Walter Rutherfurd and David Clarkson, Gentlemen; and Samuel Bard, Physician." By an act passed in 1841, the number of Trustees was increased from twelve to fifteen, of whom eight form a quorum for the transaction of business. The annual meeting for the election of Trustees takes place on the last Tuesday in April.

The number of books in the Library in 1850, when a catalogue was published, was thirty-five thousand volumes. Since that time it has been considerably increased. The only pecuniary donation received by this institution was in the year 1849, when Miss JANE DEMILT, by her last will, bequeathed the sum of *five thousand dollars* to the Library. The number of members in 1793 was 900; in 1850 it was 1,100. The rights of membership (transferable) cost $25; annual dues on the same, $6; free rights (perpetual), $100, without the payment of any annual assessment; temporary subscription, $10 per annum.

The Library occupies a new and spacious edifice in University Place, between 12th and 13th streets, and connected with it are a large and excellent reading-room for the members or subscribers, a conversation-room, and a separate reading-room for ladies.

Trustees, elected April 27th, 1858.

Wentworth S. Butler, Librarian.

Library open from 8 A. M. to 7 P. M. Reading-room from 8 A. M to 10 P. M.

ASTOR LIBRARY.

La Fayette Place, near Astor Place,

Was founded by John Jacob Astor, of the city of New York, who, by his will dated August 22, 1839, bequeathed $400,000 to establish and maintain it. This sum was payable in four annual instalments, dating from his death, which took place on the 29th of March, 1848. This institution was chartered by act of the State Legislature, dated January 18, 1849, and is under the government of ten Trustees and the Mayor of the city of New York, *ex officio*.

In respect to the noble bequest of $400,000, the will of Mr. Astor directed, and the Legislature required, the trustees to expend not exceeding $75,000 in erecting the Library building, and not exceeding $120,000 in purchasing books, etc., and to invest the residue ($205,000) "as a fund for paying the value of the site of the building ($25,000), and for maintaining and gradually increasing the said library, and to defray the necessary expenses of taking care of the same, and of the accommodation of persons consulting the library."

The building was completed during the summer of 1853, the corner-stone having been laid on the 14th day of March, 1850.

William B. Astor, Esq., has recently conveyed to the Trustees of the Astor Library three parcels of land, contiguous to the Library edifice, and bestowed other amounts, in all exceeding $100,000, in addition to his father's munificent bequest.

The Library now numbers about one hundred thousand volumes, and is increasing yearly. Open daily, except Sundays and holidays, from 10 o'clock A. M. until half an hour before sunset. Free to all persons above 16 years of age.

THE MERCANTILE LIBRARY ASSOCIATION.

Rooms in Clinton Hall, Astor Place.

This institution, founded in 1820, is composed chiefly of merchants' clerks. Its library contains about fifty thousand volumes, and is constantly increasing. An excellent reading-room is connected with it. The number of members is over five thousand.

STATE PRISONS.

Of these there are three principal ones in the State: one at Auburn, Cayuga County, one at Sing-Sing, Westchester County, and one at Danemora, Clinton County. In the city of New York, Albany, and some other counties, there are Penitentiaries for the confinement and punishment of an inferior grade of criminals.

AUBURN STATE PRISON.

Situated on State Street, opposite New York Central Railroad Depôt.

This prison originated in an act of the Legislature in 1816; first convicts received in 1817. After several experiments and modifications, it was organized on its present plan of discipline and management in 1823. Its general control is vested in a Board of Inspectors, and the internal discipline and management are intrusted to an Agent, with subordinates. The convicts are lodged in separate cells at night, and during the working hours by day, they work in company, but in absolute silence, all speech, or communication by signs or looks, being strictly forbidden. Many mechanical employments are pursued, and those who enter without any, are taught some trade. The plan has been adopted to let the labor of the convicts to contractors, and the avails of this labor go to defray the expenses of the prison. Strangers are admitted to all parts of the prison during prison hours, on paying an admission fee of 25 cents. The trades plied in the prison may be seen in the statements which follow, of the earnings of the convicts.

MOUNT PLEASANT STATE PRISON.

This prison is in Sing-Sing, on the eastern shore of the Hudson River, 33 miles above the city of New York. It was opened for the reception of convicts in 1827. It is organized on the plan of the prison at Auburn, and the general system of discipline and management is the same. The chief practical difference between them is in the far greater amount of convict labor employed at the Mount Pleasant Prison, in the very extensive marble quarries immediately contiguous thereto. Connected with the principal prison, which is for males, is a distinct and well-arranged prison for female convicts.

CLINTON STATE PRISON.

The establishment of a third State Prison, in this State, was provided for by an act of the Legislature passed May 1, 1844, with the design of applying convict labor to the production of iron, including the whole process, from mining the ore to the manufacture of the metal, in various forms, for market.

The site for this new prison is in the town of Danemora, Clinton County, about 14 miles west from Plattsburgh, and the purchase made on behalf of the State embraces 200 acres of land, including the mines. The tract slopes to the southeast, and is abundantly supplied with pure water, which can be easily conveyed through the proposed prison yard, not only for all the culinary and other uses of the prison, but for cleaning the ore; and being surrounded by a wide extent of native forest, the supply of charcoal will be plentiful, cheap, and permanent. In front of the mine is a ravine 20 to 30 feet deep, with a rivulet running along the bottom, near to which is the mouth of the mine. Excellent building stone can be obtained on the ground, for the prison structures and other purposes.

STATE PRISONS REPORT.

According to the Report of the Inspectors, there were in the three State prisons, on the 30th of September last, 1,890 convicts The number in Sing-Sing was 973; Auburn, 643; Clinton, 274. This shows a decrease in the total of 104 from 1854, and of 15 from 1855, and an increase of only four over 1856. The whole number now in prison does not greatly exceed

the average of the last ten years, notwithstanding the increase of population in the State. There are 43 life prisoners, and 247 for ten years and over—a permanent population of nearly 300.

Of the whole number of prisoners only 19 died in prison during the year. At Auburn, all but one died of pulmonary consumption; at Sing-Sing, of the twelve deaths, two were of consumption and two by accident. About forty of the convicts are reported insane, and this does not include a larger number whose minds are partially deranged, but not sufficiently so as to incapacitate them for labor.

The prisoners deposit what money they have in pocket on entering prison, to be refunded on their discharge. The amount deposited in Auburn was $240; at Sing-Sing, $218 20; an average of less than a dollar each. Visitors are charged an admission fee of 25 cents each. The amount received at Auburn from this source was $1,166 75; at Sing-Sing, $518 60; at Clinton, $64.

STATE INSTITUTIONS.

THE WESTERN HOUSE OF REFUGE OF THE STATE OF NEW YORK, FOR JUVENILE DELINQUENTS.

This institution is situated about 1¼ miles from the center of the city of Rochester, and has attached to it a farm of 42½ acres of land. The buildings are surrounded by a stone wall twenty feet in height, inclosing 4½ acres, and are sufficient for the accommodation of 360 boys. The whole front of the main building is 382 feet, but the entire plan, as originally projected, is not yet completed. The remainder of the land is appropriated for cultivation and pasturage. The number of inmates in January, 1858, was 345.

There are three classes of Managers on the part of the State, each consisting of five persons, whose terms of office expire—the first class in February, 1858, and the other two in 1859 and 1860, successively.

Officers of the Board.

F. F. Backus, President.
W. Pitkin and Elias Pond, Vice-Presidents.
Isaac Hills, Secretary and Treasurer.
Samuel S. Wood, Superintendent of the House, with two Assistants.

There are also six Teachers, male and female, a Steward, Farmer, Gardener, Chaplain, and Consulting Physician.

STATE IDIOT ASYLUM.

Situated in Syracuse. Founded in 1851.

The grounds upon which the New York Asylum for Idiots is erected are situated about a mile from the centre of the city, in a southwesterly direction, consisting of eighteen acres. The location is delightful, affording a fine view of the city of Syracuse, Onondaga Lake, and the surrounding country.

The edifice occupied by the institution is 153 feet front and rear; the central part 50 feet deep; the tower 18 feet square, and carried to the height of 70 feet. In elevation the wings embrace four stories, basement, and sub-cellar; the central parts three stories, and the lower five stories. Number of pupils in 1857 one hundred and twelve.

NEW YORK STATE LUNATIC ASYLUM.

Situated one mile west of the city of Utica.

This institution was founded by an act of the Legislature passed March 30, 1836. The work was commenced in the spring of 1838, when the foundations were laid, according to a plan contemplating the erection of four buildings, each of five hundred and fifty feet front, placed at right angles to each other, facing outward. They were to be connected at the angles by verandahs of open lattice work, and each building was to be three stories high, exclusive of a basement and attic. The surface inclosed by the foundations measured thirteen and a half acres, of which the buildings were to cover two and a half acres. The whole grounds include a productive farm of about 130 acres.

One of the above buildings was finished, according to the above plan, in 1842. It is of the Grecian Doric order of architecture, and is constructed of a dark gray limestone, quarried at Trenton, about eleven miles distant from Utica. This edifice was ready for the reception of patients in January, 1843, and was opened on the 16th of that month. It will accommodate about 400 of them.

The legal *quota* of patients receivable from the respective counties is proportioned to the whole number of the insane therein; and to determine these points, the law directs the town and ward assessors to ascertain such number, *every year*, and send lists thereof to the County Clerks to be transmitted to the Treasurer of the Asylum.

Patients are sent to the Asylum by several authorities. The Overseers and Superintendents of the poor send insane *paupers*, and such as would be *dangerous* if left at large, on their being apprehended under a Justice's warrant; the First Judge of a county sends such as are *indigent*, but *not paupers;* and those who are in confinement for crime or have been acquitted on the ground of insanity, are sent by the Courts. In the three former cases, however, formal examinations, embracing the testimony of at least two respectable physicians, as to the fact of insanity, with other suitable evidence of the fact of indigence, are required, and the whole proceedings must be reduced to writing, filed in the County Clerk's Office, and duly certified under the county seal.

MILITIA OF THE STATE OF NEW YORK.

By the annual Report of the Adjutant-General, we learn that the military force of this State comprises, in the aggregate, 16,434 officers and men, divided and subdivided into eight Divisions, twenty-eight Brigades, and ninety-seven Regiments. Of ordnance, arms, and equipment there are: Cannons, 4 nine-pounders, 98 six-pounders, and 21 howitzers; muskets, 12,031; rifles, 2,130; pistols, 3,163; swords and sabers, 4,228.

During the last year there have been expended, under the direction of the Commander-in-Chief, $2,592 for drums, bugles, and colors; $3,600 for tents. Drums of maple shells are preferred to shells of brass. Twenty companies have been organized during the year, viz.: fourteen infantry, two rifle, and four artillery. The whole number of enrolled militia in the

State, according to the returns to the President of the United States, is 350,000.

The Report makes 268 pages, embracing a great variety of interesting information to men concerned in military affairs. The names of all the commissioned officers in the State are given, with the dates of their commissions, etc.

NEW YORK STATE AGRICULTURAL SOCIETY.

This important institution was founded in 1832, by an Agricultural State Convention assembled at Albany, and was incorporated the same year. In 1841 the Legislature appropriated $8,000 annually for five years, to be distributed among the agricultural societies, which has been continued to the present time. The first cattle show and fair was held the same year at Syracuse, under the auspices of this Society, and similar exhibitions have taken place under its direction every year since that time, in different parts of the State, with constantly increasing interest, utility, and importance. For several years the Society occupied rooms in the old State Hall, at Albany, but in 1855 a new and commodious building was erected for its use, containing a lecture-room, library, laboratory, exhibition rooms, etc.

COMMISSIONERS OF EMIGRATION OF THE STATE OF NEW YORK.

It appears from the Report, dated Feb. 8th, 1858, that the number of emigrants who arrived at the port of New York in 1857 was 183,773. Of this number 80,976 were from Germany, 57,119 from Ireland, and 28,622 from England. The character and condition of the emigrants during this and the preceding years are represented to be superior to former years, the number of feeble or diseased and wholly destitute persons received at the

establishment on Ward's Island having been not more than half the number received in corresponding months prior to January, 1856. This result is attributed in part to more stringent legislation against the reception of the most worthless class sent by foreign authorities, to be thrown upon our shores for support, in order to relieve their own communities from the burden.

BOARD OF COMMISSIONERS OF EMIGRATION.

STATEMENT MADE TO THE MAYOR OF THE CITY OF NEW YORK, JANUARY, 1858, OF THE OBJECTS, CONDITION, ETC., OF THE COMMISSIONERS OF EMIGRATION

The Commissioners of Emigration, created by the Legislature of the State in 1847, provide for all emigrants arriving at this port from foreign ports, and from ports in the United States other than this State, for five years from the date of arrival.

They support the Marine or Quarantine Hospitals, to which are sent, on arrival at this port, by the Health Officer, all cases of infectious or contagious diseases, and to which are returned from this city, under the direction of the Board of Health, all emigrants infected with any contagious or infectious disease, and the Emigrant Hospitals and Refuge on Ward's Island, to which are sent all emigrants suffering from any non-contagious disease, or requiring surgical treatment, and destitute emigrants unable to support themselves. The Commissioners are also required to reimburse to the several counties of the State all expenses incurred for all emigrants chargeable to the Commission, and on the fund under its control, on the presentation of proper vouchers. All expenses incurred by and for the Commissioners of Emigration are paid and reimbursed out of the fund called the "Commutation Fund," being made up of the two dollars *per capita* paid for each emigrant by the ship-owners and agents of the vessels bringing the passengers, and indirectly by the emigrants themselves, and within twenty-four hours after their landing here, as a "commutation" of the bonds required by the State. The Commissioners require to be very careful and vigilant in their disbursements, having, in case of a deficit in the fund, either to further mortgage the property held by them in trust for the State, or to appeal to the Legislature, as they did last year, for aid.

The Commissioners find the number of recently arrived destitute emigrants very much reduced in proportion to the gross number arrived since the establishment of the Landing Depôt at Castle Garden, from previous years, although, however, the number now chargeable in the Emigrant Refuge, at Ward's Island, are much increased during the past few months, and over what they were at the same period of last year, and which increase may be in part attributable to the comparative increase in the number of emigrants arrived during the past year over the previous year, but chiefly to the great commercial prostration.

The number of emigrants arrived during the past year, as shown from the books of the Commission, is 203,500 against 142,342 for the previous year, while the number of emigrants chargeable in the several institutions, under the charge of the Commissioners at present, is 2,085 against 1,537 for the previous year, showing an increase in the number of arrivals of some twenty per cent., and of the number chargeable of about twenty-five per cent. over the same period of the year 1856.

The number chargeable in the institutions of the Commissioners is as follows:

In Emigrant Hospital, Ward's Island.....1,041
In " Refuge, " " 926
In Marine Hospital, Staten Island.....

—while, however, they have accommodations for nearly thrice this number, if necessary.

The protection of the emigrant is commended to your care, in making such municipal laws and passing such ordinances as may aid the Commissioners of Emigration in shielding the stranger from fraud and imposition.

COMMON SCHOOLS.

In 1854, by an act of the Legislature, a distinct "Department of Public Instruction" was established at the capital of the State, over which a Superintendent presides, who is elected by joint ballot of the two branches of the Legislature, on the first Tuesday of April, triennially. Salary, $2,500. A Deputy Superintendent is added, with a salary of $1,500; and there is an allowance for clerk-hire of $1,800 per annum. The *Superintendent of Public Instruction* is authorized to decide all questions relating to the Common Schools, that may be brought before him on appeal; to prepare forms for the subordinate school-officers, and direct as to the time and manner of their reports; to visit the institutions for the Blind and the Deaf and Dumb, and others of a similar character; to provide for the education of the Indian children in the State; "to visit and inspect, so often as may be practicable, such, and so many of the Common Schools and Academies as he may deem expedient;" to make an annual apportionment of the school moneys; to remove subordinate officers for incompetency, and to report annually to the Legislature the condition of the schools in the State, "with such recommendations and suggestions as he may deem suitable." He is, *ex-officio*, a member of the Board of Regents of the University, and chairman of the committee of that board in the State Normal School.

The *School Commissioners*, elected triennially in the assembly districts, and in sections of the same, are, in number, 113, for the whole State. Their duties are to visit and examine all the schools within their jurisdiction; to examine and license teachers; to organize and conduct, once at least in each year, a Teachers' Institute, to be held for ten working days, etc. The Supervisors of towns are charged with the custody and disbursement of school moneys; and in each school district three Trustees are elected, for three years, who are charged with the employment of teachers and the general management of the schools.

STATISTICS OF THE COMMON SCHOOLS.

The following statistics are chiefly derived from the report of Henry H. Van Dyck, Esq., the present Superintendent of Public Instruction, dated Jan. 5th, 1858.

The whole number of school districts in the State, as per reports made on the first of January, 1857, is 11,857, being an increase of *fifty-nine* over the previous year. But as some school districts omit to report at all, it is fair to assume that there are 12,000 districts in the State, including the cities.

The reported number of children attending the public schools in 1856, is,

In the cities	227,452
In the rural districts	605,283
Total	832,735

The average time school was kept in the rural districts was 7½ months. The teachers employed within the year, in the State, were:

Males	12,452
Females	19,111
Total	31,563

The total amount raised and appropriated for school purposes in 1856, including the sum on hand left from the preceding year, was $3,403,139 32.

The school-houses in the State in the same year, were 11,492. The total number of volumes in the school libraries, reported for the year 1857, was

1,377,933. Total cost of supporting the Common Schools in 1856, was, $3,544,587 62

The revenue for the support of Common Schools is derived from the income of the Common School and United States Deposit Funds, and a tax of three fourths of a mill upon the assessed valuation of property in the State. At the close of the year 1857 the capital of the Common School Fund was $2,526,392 24

The capital of the U. S. Deposit Fund 4,014,520 71

Moneys apportioned for the year 1858:

From Common School Fund	$192,500 00
" U. S. Deposit Fund	165,000 00
" State School Tax	1,073,768 97
Balance in State Treasury	316 84
Excess of district quotas last year	547 00
Total	$1,432,132 81

Teachers' Institutes have been held in nearly every county in the State, with the best effects. The sum appropriated for their expenses in each county, in 1857, was $120.

STATE NORMAL SCHOOL.

This school was first opened at Albany, in 1844, under the direction of an Executive Committee, consisting of the Secretary of State as Superintendent of Common Schools, and four other persons appointed by the Regents of the University. Under the present system, the Superintendent of Public Instruction takes the place of the Secretary of State, as a member of this Committee. It is not the purpose of the Normal School to impart elementary instruction in the district school studies, but to take persons already possessing these primary qualifications, and prepare them to become accomplished and efficient teachers. Each county in the State is entitled to send to the school a number of pupils (either male or female), equal to twice the number of members of Assembly from such county. The School Commissioners in each county select the pupils on the first Mondays of February and September in each year; females must be at least 16, and males 18 years of age. The time required to complete the course of study varies according to the capacity, etc., of the pupil, but "ought never to exceed two years."

On entering the school all the pupils are required to sign the following declaration: "We, the subscribers, hereby DECLARE, that it is our intention to devote ourselves to the business of teaching the schools of the State, and that our sole object in resorting to this Normal School is the better to prepare ourselves for this important duty."

All pupils receive their tuition free. They are also furnished with the use of text-books without charge. For traveling expenses to and from their places of residence, each pupil receives three cents per mile on the distance from his county seat to Albany. The price of board varies from $2 25 to $3 00 per week. Diplomas are granted by the Executive Committee, on the recommendation of the Faculty of the institution, to such pupils as have completed the prescribed course of study; and, by an act of the Legislature, this diploma is sufficient evidence of a qualification to teach in the schools of the State.

EXECUTIVE COMMITTEE FOR 1858.—H. H. Van Dyck, *Superintendent of Public Instruction;* Charles L. Austin, Franklin Townsend, Robert H. Pruyn; Samuel B. Woolworth, *Secretary and Treasurer.*

FACULTY.—David H. Cochran, A.M., *Principal and Professor of Intellectual and Moral Science;* Charles Davies, LL.D., *Professor of Mathematics;* Edward F. B. Orton, A.M., *Professor of Natural Science;* Rev. F. S. Jewell, A.M., *Professor of the English Language and Literature;* together with six other teachers, three of whom are females, and a superintendent of the Experimental School (a school for children attached to the Normal School).

The number of pupils in 1857 was—Males	106
Females	226
Total	332
Graduates of the term ending 29th Jan., 1857	28
" " " 9th July, "	40
Total for 1857	68

[NOTE.—For further information, see the Annual Report of the Executive Committee of the Normal School of the State of New York, transmitted to the Legislature, February 4th, 1858.]

INDIAN SCHOOLS.

In 1856 the Legislature devolved on the Superintendent of Public Instruction the duty of "providing the means of education for all the Indian Children in the State." The whole number of Indian Schools now in operation is 23; of which seven are on the Cattaraugus Reservation; six on the Allegany; two on the Tuscarora; two on the St. Regis; one on the Tonawanda; and one on the Onondaga. Two are located on the borders of Oneida and Madison counties, for the benefit of the children of the Oneidas, and another near Sag Harbor, Long Island, for those of the Shinecock Indians. An increasing interest was found springing up among all classes on the Reservations, by the Superintendent, during his visits to them: "Those who have yielded to Christian influences are, of course, much in advance of their pagan brethren in general intelligence, as well as in the amenities of civilized life." (Report, etc., p. 25.)

Statement of the number of Pupils, and average attendance at School on the Cattaraugus and Allegany Reservations.

Cattaraugus. Seven Districts—No. of pupils	262
Average attendance	150
Allegany. Six Districts—No. of pupils	172
Average attendance	85

Mr. W. D. Peirce, one of the teachers, is a *Seneca*, a graduate of the Normal School, Albany. Two others of the teachers are Seneca girls, well qualified to teach in the new districts where they are employed. Missionaries are located on these Reservations, who have been useful in aiding in the establishment of schools under the agents of the State.

The payments during the year 1857, for the erection and repair of school-houses, wages of teachers, purchase of books, expenses of supervision, have amounted to $6,627 45. Of this amount, a considerable portion accrued in the previous year, and the whole was distributed as follows:

Cattaraugus Reservation	$1,940 36	Oneida Reservation	$652 61
Allegany "	714 09	St. Regis "	848 35
Tonawanda "	813 38	Shinecock "	877 00
Onondaga "	781 66		
		Total,	$6,627 45

FOREIGN IMMIGRATION.

From 1844 to 1857, inclusive.

The Returns made to the State Department of the number of immigrants arriving at the ports of the United States, in each year since 1844, have been communicated to the House of Representatives. The following Table is a recapitulation:

Year.	Males.	Females.	Sex not stated.	Total.
1844	48,897	35,867	—	84,764
1845	69,179	49,311	1,406	119,896

VARIETIES OF SPEED.

The velocity of a sailing-ship is from 8 to 16 miles an hour; of a steamship, from 12 to 20 miles; of a race-horse, 28 to 32 miles; of a locomotive, with safety, from 40 to 50 miles; of a bird, 50 to 60 miles; of the clouds, in a violent hurricane, 80 to 100 miles; of sound, 820 miles; of a cannon-ball (as found by experiment), from 800 to 1,000 miles; of the Earth round the Sun, 68,000 miles—about 100 times faster than a cannon-ball; of Mercury, 100,000 miles; of light, about 8,000,000 miles, passing from the Sun to the Earth in about 8 minutes, or about a million times swifter than a cannon-ball. Electricity, in its use the greatest achievement of man, is propelled at the rate of 288,000 miles per second, or greater than that of light through the celestial space.

STATISTICS OF THE UNITED STATES.

THE UNITED STATES OF AMERICA, with its TERRITORIES, extends from the Atlantic, west to the Pacific Ocean, occupying the middle division of North America; being bounded on the north by the British Possessions, and on the south by the Gulf of Mexico and the Republic of Mexico. It lies between 25° and 49° of North latitude, and between 66° 59′ and 125° West longitude from Greenwich; or, between 10° 01′ East and 48° West longitude from Washington City. Its greatest length from east to west is estimated at 3,000 miles, and its greatest breadth from north to south 1,700 miles; containing an estimated area of 3,200,000 square miles. It has a frontier line of about 10,000 miles, of which 3.500 miles is along the Atlantic coast and Gulf of Mexico, and 1,620 miles on the Pacific Ocean and Straits of Juan de Fuca. Its surface embraces about one third of North America, including the West India Islands, being about one twentieth of the land of the whole earth. It was first discovered to the inhabitants of the Old World by John Cabot, A.D. 1497, being five years after the landing of Columbus at St. Salvador.

The first permanent settlement in the United States was at Jamestown, Virginia, in 1607,* which continued an English colony till the Declaration of Independence, July 4, 1776. After a war of seven years' duration, peace was made, and Independence acknowledged by Treaty with England in 1783.

The articles of Confederation were entered into in 1777. The present United States Constitution, framed in 1787, went into operation March 1st, 1789, after being approved of by the thirteen original States of the Union. Louisiana, comprising the States and Territories now belonging to the United States west of the Mississippi, was purchased of France in 1803, and Florida of Spain in 1819. Texas was admitted into the Union by "Joint Resolutions" of Congress, passed March 1, 1845. New Mexico and Upper California, including Utah, were acquired by treaty with Mexico, ratified in 1848. Arizona was acquired by treaty with Mexico, ratified in June, 1854.

The present number of organized States is thirty-one. In the District of Columbia, originally formed by cessions from Maryland and Virginia,† is situated WASHINGTON CITY, the United States seat of government, being first occupied in 1800. The District and Capital are exclusively under the jurisdiction of the Federal Government. Congress meets on the first Monday in December in every year, unless otherwise directed by law.

The population of the United States at the time of taking the first census in 1790, was 3,929,328; in 1800, 5,309,758; in 1810, 7,239,903; in 1820, 9,638,166; in 1830, 12,866,020; in 1840, 17,068,666; in 1850, 23,191,876, of the latter number 434,495 were free colored persons, and 3,204,313 slaves.

Maine, Vermont, Louisiana, Florida, Texas, and thirteen Territorial Governments have been organized and converted into States since the Revolution, while three others are applying for admission. The States and Territories west of the Mississippi River are about twice as great in extent as the twenty-six States east of it. Estimated population (1858), 30,000,000, being an increase of about 3 per cent. per annum for the last fifty years. At the same ratio of increase, the population will amount in 1900 to 98,957,865.

* St. Augustine, Florida, was settled in 1665, by the Spaniards.

† The Virginia part, constituting the County of Alexandria, has recently been re-annexed to the above State.

STATES AND TERRITORIES

The STATE GOVERNMENTS are very similar to that of the Federal Government in their organization, being each composed of an executive, legislative, and judicial department.

Maine.—Settled in 1630, by English; belonged to Massachusetts till 1820, when it was admitted into the Union as a State; capital, AUGUSTA. The elective franchise rests on a residence in the State of three months next preceding any election, for any citizen of the United States, except paupers and persons under guardianship. Area, 35,000 square miles. Population in 1840, 501,793; in 1850, 583,169.

New Hampshire.—Settled in 1623, by English; acceded to the Union June, 1788, being one of the original thirteen States; capital, CONCORD. Every male citizen of 21 years of age, except paupers, has the right to vote. Area, 8,030 square miles. Pop. in 1840, 284,574; in 1850, 317,976.

Massachusetts.—Settled in 1620, by English Puritans, who landed at Plymouth; acceded to the Union in February, 1788; capital, BOSTON. One year's residence in the State, and payment of a State or county tax, gives the right to vote to every male citizen of 21 years and upward, excepting paupers and persons under guardianship. Area, 7,250 square miles. Population in 1840, 737,698; in 1850, 994,514.

Rhode Island.—Settled in 1631, by English from Massachusetts; acceded to the Union in May, 1790; capitals, PROVIDENCE and NEWPORT. By the constitution recently adopted, the qualifications for voting may be stated, omitting details, to be a freehold possession worth $13; or, if in reversion, renting for $7, together with a year's residence in the State and six months in the town; or, if no freehold, then two years' residence in the State and six months in the town, and payment of a dollar of tax, or militia service instead. Area, 1,200 square miles. Pop. in 1840, 108,830; in 1850, 147,545.

Connecticut.—Settled in 1633, by English from Massachusetts; acceded to the Union in January, 1788; capitals, NEW HAVEN and HARTFORD. Residence for six months, or militia duty for a year, or payment of State tax, or a freehold of the yearly value of $7, gives the right to vote. Area, 4,750 square miles. Population in 1840, 300,015; in 1850, 370,792.

Vermont.—Settled in 1763, by English chiefly from Connecticut, under grants from New Hampshire; admitted into the Union in 1791; capital, MONTPELIER. One year's residence gives the right to vote to any citizen of the United States who will take an oath of allegiance. Area, 8,000 square miles. Population in 1840, 291,948; in 1850, 314,120.

New York.—Settled in 1613, by Dutch; submitted to the English in 1664; retaken by the Dutch in 1673; restored to the English in 1674, acceded to the Union in July, 1788; capital, ALBANY. One year's residence in the State and six months in the county gives the right to vote; but every man of color must have a residence of three years, and have owned and paid taxes on a freehold assessed at $250 for a year. Area, 46,000 square miles. Population in 1840, 2,428,921; in 1850, 3,097,394; in 1855, 3,466,212.

New Jersey.—Settled in 1627, by Swedes; conquered by the Dutch in 1655; submitted to the English in 1664; acceded to the Union in December, 1787; capital, TRENTON. One year's residence in the State gives the right to vote, except to paupers, etc. Area, 6,851 square miles. Population in 1840, 373,306; in 1850, 489,555; in 1855, 569,494.

Pennsylvania.—Settled in 1682, by English; acceded to the Union in December, 1787; capital, HARRISBURG. One year's residence in the State and ten days in the election district, and payment of a State or county tax

assessed ten days prior to an election, gives the right to vote, except that citizens between 21 and 22 years of age need not have paid a tax. Area, 47,000 square miles. Population in 1840, 1,724,033; in 1850, 2,311,786.

Delaware.—Settled in 1627, by Swedes; granted to William Penn in 1682; separated in 1703; acceded to the Union in December, 1787; capital, DOVER. Qualification of voters same as in Pennsylvania. Area, 2,120 square miles. Population in 1840, 78,085; in 1850, 91,532, of whom 2,290 were slaves.

Maryland.—Settled in 1634, by English; acceded to the Union in April, 1788; capital, ANNAPOLIS. One year's residence in the State and six months in the county gives the right to vote to every white male citizen. Area, 11,000 square miles. Population in 1840, 469,232; in 1850, 583,034, of whom 90,368 were slaves.

Virginia.—Settled in 1607, by English; acceded to the Union in June, 1788; capital, RICHMOND. A freehold in possession, or in the occupancy of only a tenant-at-will or sufferance, worth $25; or the reversion of a freehold, to vest on the termination of a life-estate, and worth $50; or a leasehold of the yearly value of $20, for a term of not less than five years; or the payment of a State tax within the year by a housekeeper who is the head of a family, and has a year's residence, gives the right of voting to every citizen, except paupers, felons, and persons in the army and navy not having commissions. Area, 61,352 square miles. Population in 1840, 1,239,797; in 1850, 1,421,661, of whom 472,528 were slaves.

North Carolina.—Settled in 1650, by English; acceded to the Union, November 21, 1789; capital, RALEIGH. Every freeman of the age of 21 years and upward, who has resided one year in any county within the State, may vote for a member of the House of Commons, but must own fifty acres of land to vote for a Senator. Area, 45,500 square miles. Population in 1840, 753,449; in 1850, 869,039, of whom 288,548 were slaves.

South Carolina.—Settled in 1689, by English; acceded to the Union, May 23, 1788; capital, COLUMBIA. Voters, residents of the State two years, who have a freehold of fifty acres of land, or have paid a State tax, and resided six months in the district where voting. Area, 28,000 square miles. Pop. in 1840, 594,398; in 1850, 668,507, of whom 384,984 were slaves.

Georgia.—Settled in 1733, by English; acceded to the Union, January 2, 1788; capital, MILLEDGEVILLE. Voters, citizens of the State and six months resident of the county where voting, and have paid taxes the year preceding the election. Area, 58,000 square miles. Population in 1840, 691,392; in 1850, 906,185; in 1855, 935,090, of whom 389,237 were slaves.

Population in 1840, 97,574; in 1850, 209,897, of whom 47,100 were slaves.

Michigan.—Settled in 1670, by French; admitted into the Union in 1837. Voters, all white male citizens 21 years of age, and resident in the State six months preceding election; capital, LANSING. Area, 56,243 square miles. Population in 1840, 212,267; in 1850, 397,654.

Texas.—Early settled by Spaniards, and more recently by emigrants from the United States; formed a part of the Republic of Mexico until 1836, when it declared its independence, and existed as a separate government until 1845, when it was admitted into the Union by "Joint Resolutions for annexing Texas with the United States." Every free white male, 21 years old, a citizen of the United States or Texas, who has resided in the State one year, and six months in the district where he offers to vote, shall have the right of suffrage; capital, AUSTIN. Area, 325,520 square miles. Population in 1850, 212,592, of whom 58,161 were slaves. According to the late act of Congress, "the boundary of Texas on the north shall commence at the point at which the meridian of 100° west from Greenwich is

intersected by the parallel of 36° 30′ N., and shall run from said point due west to the meridian of 103° west from Greenwich, thence her boundary shall run due south to the 32° North latitude; thence, on the said parallel of 32° N., to the Rio Bravo del Norte, and thence with the channel of said river to the Gulf of Mexico."

Iowa.—Settled by emigrants chiefly from the Northern and Eastern States; was created into a territorial government by act of Congress in June, 1838, and admitted into the Union in December, 1846. Every white male citizen of the United States 21 years old, having resided in the State six months, and in the county where he claims to vote twenty days, shall have the right of suffrage; capital, DES MOINES. Area, 50,914 square miles. Population in 1840, 43,112; in 1850, 192,214.

Wisconsin.—First settled by emigrants chiefly from the Northern and Eastern States, since largely augmented by emigrants from Europe; it was created into a territorial government in 1836, and admitted into the Union in 1848. All males 21 years old, residents of the State for one year next before the election, who are white citizens of the United States, or white foreigners who have declared their intention to become citizens, or persons of Indian blood once declared by the laws of the United States to be citizens, subsequent laws to the contrary notwithstanding, may vote; capital, MADISON. Area, 53,924 square miles. Pop. in 1840, 30,045; in 1850, 305,391.

California.—Settled by Spaniards in 1769; the early establishments being of a missionary and military character. The boundary of this large region of country was considered rather indefinite while under Mexican authority, in regard to its eastern limits. By treaty of peace with Mexico, ratified March 16, 1848, this Territory, together with New Mexico, was ceded to the United States. Admitted into the Union, September, 1850. Its area is 188,982 square miles, lying between the 32° and 42° of North latitude.* Every white male citizen of the United States, and every white male citizen of Mexico, who shall have elected to become a citizen of the United States, under the treaty of peace exchanged and ratified at Queretaro on the 30th of May, 1848, of the age of 21 years, who shall have been a resident of the State six months next preceding the election, and the county or district in which he claims his vote thirty days, shall be entitled to vote at all elections which are now, or hereafter may be, authorized by law. Capital, SACRAMENTO. The population in 1848 was estimated at 33,000, which has since rapidly increased by emigration from the United States and other parts of the world Population in 1852, from official returns, 262,435.

New Mexico.—This Territory, as defined by Spanish or American authorities, extended from 32° 30′ to 42° North latitude, and from 23° to about 33° longitude west of the city of Washington. It was early settled by Spaniards, and formed a Territory of the Republic of Mexico until 1848, when it was ceded to the United States. Capital, SANTA FE. Area, 210,000 square miles. Population in 1850, 61,547. In September, 1850, this Territory was defined by act of Congress, and provision made for its organization. *Right of Suffrage.*—Every free white male inhabitant, above the age of 21 years, who shall have been a resident of said Territory at the time of the passage of this act, shall be entitled to vote at the first election. and shall be eligible to any office within the said Territory; but the qualifications of voters, and of holding office, at all subsequent elections, shall be such as shall be prescribed by the Legislative Assembly.

Utah.—This Territory, organized by act of Congress, September 9, 1850,

* Gold was first discovered on the American River, a tributary of the Sacramento, in the year A.D. 1848.

is bounded as follows, with the following proviso: "*Be it enacted, etc*, That all that part of the territory of the United States included within the following limits, to wit: bounded on the west by the State of California, on the north by the Territory of Oregon, and on the east by the summit of the Rocky Mountains, and on the south by the 37th parallel of North latitude, be, and the same is hereby, created into a temporary government, by the name of the Territory of Utah; *and when admitted as a State, the said Territory, or any portion of the same, shall be received into the Union, with or without slavery, as their constitution may prescribe at the time of their admission: Provided*, That nothing in this act contained shall be construed to inhibit the government of the United States from dividing said Territory into two or more Territories, in such manner and at such times as Congress shall deem convenient and proper, or from attaching any portion of said Territory to any other State or Territory of the United States." The other provisions of this act are identical in all respects with those of the act admitting New Mexico, except that this act takes effect from its passage. Capital, GREAT SALT LAKE CITY,* situated in north latitude 40° 45′ 44″; west longitude from Greenwich, 111° 26′ 34″; altitude, 4,300 feet above the level of the sea, being in the valley of the Great Salt Lake, usually called the "Great Basin of North America." Estimated area, 188,000 square miles. Population in 1850, 11,380. Estimated population in 1857, 70,000 souls, being mostly Mormons, or "Latter-day Saints."

Oregon.—This extensive region, including Washington Territory, was discovered by Capt. Robert Gray, May 7, 1792, who entered the Columbia River, to which he gave the name of his vessel. Settled by British belonging to the Hudson Bay Company, and American emigrants; also, inhabited by numerous tribes of Indians; organized as a Territory, August 4, 1848. It is now applying, through its Legislature, for admission into the Union. Capital, SALEM. Area, 227,000 square miles. Population in 1850, 13,293. Estimated population in 1857, 43,000.

Minnesota—for which a territorial government was formed by act of Congress, passed March 3, 1849; settled by emigrants from the Northern and Western States; is bounded on the north by the British Possessions, east by Wisconsin, south by Iowa, and west by the new Territory of Dakota. It is now applying, through its Legislature, for admission into the Union. The qualification of voters is similar to Pennsylvania, excluding Indians and colored persons. Capital, ST. PAUL. Area, 70,000 square miles. Population of whites in 1850, 6,077, and about 25,000 Indians. Estimated population in 1857, 160,000.

Kanzas.—Organized as a Territory by act of Congress, passed May, 1854; settled by emigrants from the Northern and Southern States; lies between 37° and 40° North latitude, being bounded on the east by the State of Missouri, and on the west by the Rocky Mountains, dividing it from Utah. The right of suffrage, according to the above act, was as follows: Every free white male inhabitant above the age of 21 years, who shall be an actual resident of said Territory, and shall possess the qualifications hereinafter prescribed, shall be entitled to vote at the first election, and

* This interesting city is situated about 22 miles southeast of the lake from which it takes its name, and about two miles due east of the River Jordan, or Utah, near the base of a mountain. "The city is regularly laid out, on a rather extensive scale; the streets cross each other at right angles, and all of them are eight rods wide. The greater part of the houses which have been built thus far are regarded as temporary, and most of them are small, but comfortable, being, in general, constructed of '*adobes*,' or sun-tried brick. Among the public buildings is a house for public worship, a council-house, and a bath-house at the warm spring; and it is in contemplation to erect another temple, larger and more magnificent than that which was formerly built at Nauvoo."

shall be eligible to any office within the said Territory; but the qualifications of voting and holding office at all subsequent elections shall be such as shall be prescribed by the Legislative Assembly; *Provided*, that the right of suffrage and of holding office shall be exercised only by citizens of the United States, natives or naturalized; but no soldier or seaman in the service of the General Government. Area, 136,000 square miles. Capital, LECOMPTON. Population in 1857, about 50,000; having 10,000 voters.

Nebraska Territory.—Organized by act of Congress, passed May, 1854; settled by emigrants from the Northern and Western States; lies between 40° and 49° North latitude, being bounded on the east by the Missouri River, and on the west by the Rocky Mountains, dividing it from Oregon and Washington Territories. Right of suffrage the same as Kanzas. Area, 342,000 square miles. Capital, OMAHA CITY. Estimated pop., 30,000. This immense Territory is sparsely populated by roving tribes of Indians, who hunt the buffalo and other wild game.

Washington Territory.—Organized by act of Congress, March 2, 1853; settled by emigrants from the Northern and Western States; was taken from the northern part of Oregon, "being all that portion of Territory lying and being south of the 49th degree of North latitude, and north of the middle of the main channel of the Columbia River, from its mouth to where the 46th degree of North latitude crosses said river, near Fort Wallah Wallah, thence with said 46th degree of latitude to the summit of the Rocky Mountains."* Capital, OLYMPIA. Area, 113,000 square miles. Estimated white population, 1857, 10,000, with a large number of Indians.

Indian Territory—situated west of the States of Arkansas and Missouri, and south of the 37th degree of North latitude. is bounded on the south and west by Texas. It is estimated to contain 200,000 square miles, being inhabited by tribes of civilized Indians. Population unknown.

PROPOSED TERRITORIES.

The **Territory of Arizona**, acquired by treaty with Mexico in 1854, commonly known as the "Gadsden Treaty;" first settled by Mexicans; lies between the 31st and 33d parallels of North latitude, and is estimated to contain 39,000 square miles; having been purchased at a cost of $10,000,000. It is at present annexed to New Mexico, but a separate territorial organization is proposed, with the following enlarged boundary, extending north to the 34th parallel of latitude, taking in a part of New Mexico, as now defined, and running from the 103d meridian, west to the Colorado River, dividing it from California. Estimated area, 90,000 sq. miles. Pop., 10,000.

The **Territory of Dakota**, lying west of Minnesota, first settled on the north by emigrants in the employ of the Hudson Bay Company; comprises a large extent of country, cut off from Minnesota lying on the east. It is bounded on the north by the British Possessions, and on the south by the State of Iowa, having for its western boundary, in a great part, the Missouri River. The Red River country, on the north of this Territory, possesses a fine climate and good soil. It was supposed to contain, in 1857, 4,000 white inhabitants; also, a large population of Indians, who subsist mainly by hunting and fishing.

A new Territory is contemplated being formed from the west half of Utah; while the dictates of humanity call for a new Indian Territory, embracing the northern portion of Nebraska, where the *red man* should be allowed to live in quiet and security.

---

* The climate of Washington Territory is much milder than the same parallels of latitude east of the Rocky Mountains, while the soil is mostly rich and very fertile. Gold and other minerals are also found in the Territory.

The Supreme Court is held in the City of Washington, and has one Session annually, commencing on the first Monday of December.

CIRCUIT COURTS OF THE UNITED STATES.

The United States are divided into nine Judicial Circuits, in each of which a Circuit Court is held at least once a year in each State within the circuit, by a justice of the Supreme Court assigned to the circuit, and by the district judge of the district or State in which the court is held.

Circuits	Presiding Judges.
1. Maine, N. Hampshire, Mass., and R. Island.....	Justice Clifford.
2. Vermont, Connecticut, and New York.....	Justice Nelson.
3. New Jersey and Pennsylvania.....	Justice Grier.

7. Ohio, Indiana, Illinois, and Michigan.....	Justice McLean.
8. Kentucky, Tennessee, and Missouri.....	Justice Catron.
9. Mississippi and Arkansas.....	Justice Daniel.

The States of Florida, Iowa, and Wisconsin have not yet been attached to any circuit, but the separate District Courts have the power of Circuit Courts.

There is a local Circuit Court held by three Judges, in the District of Columbia, specially appointed for that purpose. The Chief Justice of that Court sits also as District Judge of that District.

The States of Ohio, Indiana, Illinois, Michigan, Wisconsin, Iowa, and California were established Free States.

The census of 1850 contains no returns of slaves in the Free States, except New Jersey, where 236 remained

* Slavery abolished by act of the Legislature, July 4, 1827.

RELATIVE GROWTH OF THE NORTHERN AND SOUTHERN PORTIONS OF THE UNION, FROM 1800 TO 1850:

Compiled from the Official Census, with estimate of Population, etc., to the year 1900.

1800—Total population of the Free States	2,684,609
Total population of the Slave States	2,621,316
Excess in Free States in 1800	63,293
1810—Total population of the Free States	3,687,445
Total population of the Slave States	3,552,369
Excess in Free States in 1810	135,076
1820—Total population of the Free States	5,152,314
Total population of the Slave States	4,485,817
Excess in Free States in 1820	666,497
1830—Total population of the Free States	6,995,627
Total population of the Slave States	5,871,293
Excess in Free States in 1830	1,124,334
1840—Total population of the Free States	9,730,135
Total population of the Slave States	7,332,431
Excess in Free States in 1840	2,397,704
1850—Total population of the Free States	13,588,069
Total population of the Slave States	9,658,232
Excess in Free States in 1850	3,929,837

When the slave population of 1850, amounting to 3,198,298, is deducted from the aggregate population of the Slave States, it shows the following results:

Total number of freemen in the Free States	13,588,069
Total number of freemen in the Slave States	6,459,934
Excess of freemen in non-Slaveholding States	7,128,135

According to the same Ratio of Increase, there will be in the United States in 1860:

Total population of the Free States	18,539,834
Total population of the Slave States	12,555,701
Excess in Free States in 1860	5,984,133

of which 12,555,701 in the Southern States, 4,157,787 will be slaves; leaving only 8,397,914 freemen in the slaveholding States, against 18,539,834 freemen in the non-holding or Northern States.

The above estimate of proportionate increase in the non-slaveholding States, if carried forward to 1900, shows the following results:

Total population of the Free States	62,815,476
Total population of the Slave States	36,080,036

The slave population, at the same ratio of increase as heretofore, will then amount to 11,875,052, making a grand total of 98,595,512 inhabitants.

BRITISH POSSESSIONS IN NORTH AMERICA.

NORTH AMERICA, stretching from the Atlantic to the Pacific Ocean, east and west, and from the Arctic regions to the tropics, north and south, contains according to the latest authorities about 8,500,000 square miles of surface, and an estimated population of 60,000,000.

The political government include the following areas:

Divisions.	Square miles.	Divisions.	Square miles.
British America	3,000,000	Republic of Mexico	854,662
Russian America	400,000	Central America	200,000
Danish America	380,000	French Fishing Islands	120
Arctic Lands	500,000		
United States	3,200,000	Total square miles	8,534,782

BRITISH AMERICA contains nearly the same area as the United States; although the northern portion is not available for the purposes of either agriculture or permanent settlement, yet enough remains of the desirable portion to form a great country. It is divided into the following provinces; all but the Hudson Bay Company's Territory enjoying the free institutions of Great Britain:

Provinces.	Sq. miles.	Provinces.	Sq. miles.
Canada, (Upper and Lower)	358,822	Prince Edward's Island	2,173
New Brunswick	27,620	Hudson Bay Com. Ter. including Vancouver's Is.	2,500,000
Nova Scotia and Cape Breton	18,756	Labrador	150,000
Newfoundland	47,000		

PROVINCE OF CANADA,

The most important of the British colonies, is divided into two parts—Upper and Lower, or Eastern and Western. The river Ottawa forms the great central boundary. United Canada is bounded on the north and west by the Hudson's Bay Company's Territory, as at present organized; by the United States on the south, and on the east by the Province of New Brunswick and the Gulf of St. Lawrence. Although physically, and, to some extent, nationally distinct, the two provinces of Upper and Lower Canada are politically and commercially united under one government and provincial legislature. Seat of Government, OTTAWA CITY, being favorably situated on the south bank of the Ottawa River, 120 miles above Montreal, C. E., and about the same distance from Kingston, C. W. The whole of Canada, about 1,800 miles in length, lies in the valley of the great Lakes and River St. Lawrence, being drained by the latter magnificent stream, which is rendered navigable from Lake Ontario to the Gulf of St. Lawrence, a distance of 750 miles.

By the means of Ship Canals and Locks, 2,000 miles of navigation are obtained, extending from the head of Lake Superior, through Lakes Huron, St. Clair, Erie, and Ontario to the Gulf of St. Lawrence. Vessels of a large class can now load at Chicago or Superior City and sail direct for Europe, or any other part of the world. The GRAND RAILWAY of Canada extends from Portland, Me., and Quebec to the foot of Lake Huron, a total of 962 miles—thus uniting the Atlantic Ocean and the great Lakes of America by one continuous chain of iron, crossing the St. Lawrence at Montreal by means of the Victoria Bridge.

Speaker of the Legislative Council, Hon. E. P. Taché.
Attorney-General for Upper Canada, Hon. John A. Macdonald.
Inspector-General, Hon. William Caley.
Postmaster-General, Hon. Robert Spence.
Commissioner of Crown Lands, Hon. E. P. Taché.
Chief Commissioner of Public Works, Hon. François Lemieux.
Attorney-General for Lower Canada, Hon. George E. Cartier.
Receiver-General, Hon. Joseph C. Morrison.
Provincial Secretary, Hon. Timothy Lee Terrill
Pres. of the Council and Min. of Agriculture, Hon. Philip M. Vankoughnet.
William H. Lee, *Clerk of Executive Council.*
J. F. Taylor, *Clerk of Legislative Council.*
W. B. Lindsay, *Clerk of Legislative Assembly.*

NOTE.—The Governor-General is selected by the Crown, and generally holds office for six years. The members of the Cabinet, or Executive Council, are appointed by the Governor-General, and hold office (unless removed) so long as they retain the confidence and support of the Legislature—in which they must hold seats. The *Government* consists of three branches: 1. The Queen, (represented by the Governor), 2. The Legislative Council, and 3. The House of Assembly.

PROVINCE OF NOVA SCOTIA, INCLUDING CAPE BRETON.

The second in importance and population of the British North American Colonies, is situated to the southeast of New Brunswick. The BAY OF FUNDY, separating Nova Scotia from New Brunswick, is a large expanse of water, being remarkable for its high tides, fogs, storms, and fisheries. It is an arm of the sea, 170 miles long, and from 30 to 60 wide. The Province is naturally divided into two parts: the Peninsula of Nova Scotia, and the Island of Cape Breton. Its area is 18,746 square miles. Population in 1851, 276,117. Seat of Government, HALIFAX. Earl of Mulgrave, *Lieutenant-Governor.*

PROVINCE OF NEW BRUNSWICK,

Settled by English Loyalists and a few French, is a large and important province, lying east of the State of Maine. The River St. John, 450 miles in length, drains a portion of Maine, Canada, and New Brunswick, being navigable to FREDERICKTON, the capital, 84 miles from the sea. The area of New Brunswick is 27,620 square miles. Population in 1851, 193,800; many of whom are engaged in lumbering and the fisheries. J. H. T. M. Sutton, *Lieutenant-Governor.*

PRINCE EDWARD'S ISLAND.

Settled by the descendants of the early Acadian French, English, Scotch, and Irish, are now blended in the general population, being nearly one half Roman Catholics. The island is 130 miles long and about 30 miles wide, having an area of 2,173 square miles. It is cresent-shaped, lying along the southern part of the Gulf of St. Lawrence. Population, 72,000. Seat of Government, CHARLOTTE TOWN. Dominick Daly, *Lieutenant-Governor.*

ISLAND OF NEWFOUNDLAND.

This important island was discovered by Sebastian Cabot in the month of June, 1497. It was then inhabited by an Algonquin tribe of red Indians and some Esquimaux Indians. The first fisheries were established by the Portuguese, in 1502, since which time it has become so famous and productive, giving employment to a great number of seamen. It lies at the entrance to the Gulf of St. Lawrence, being about 300 miles long, and 200 miles wide. Area, 36,000 square miles. Capital, ST. JOHN. Population about 100,000, being mostly engaged in the fisheries.

Newfoundland, no doubt, is destined to be famous, as being the connecting point for the submarine telegraph between Europe and America. The distance is only 1,640 geographical miles from Ireland.

Sir A. Bannerman, *Governor.*

HUDSON BAY TERRITORY, OR NEW BRITAIN.

This vast territory, stretching across the northern portion of British America, from the coast of Labrador to the Pacific Ocean, includes nominally the following areas: I. *Rupert's Land*, embracing (as granted by the charter of Charles II., in 1670) all the country watered by rivers falling into Hudson Bay. II. The *Indian Territories*, including indefinite areas, or sections, drained by the Coppermine, Mackenzie, and Frazer River, etc., extending from the 49th degree north latitude to the Frozen Ocean, and from the Rocky Mountains to the Pacific Ocean, between latitudes 49° and 54° 40′ north. The greater portion of this territory is no doubt destined soon to be governed by United Canada—thus affording an opportunity for British subjects, and others, to settle this vast, and much of it fertile region. Estimated area, 2,500,000 square miles.

Lake *Winnipeg*, receiving the waters of Red River and the Saskatchawan, is a large body of water, being from 10 to 50 miles wide and 240 miles long. Its outlet is Nelson River, a large and mighty stream, interrupted by rapids like unto the St. Lawrence. From this lake westward to the Pacific Ocean the climate is comparatively mild, the whole southern portion being susceptible of sustaining a dense population.

YORK FACTORY, lying on the west side of Hudson Bay, in north latitude 57°, is the head-quarters of the Hudson Bay Company. Sir George Simpson, *Chief Manager.*

VANCOUVER'S ISLAND, lying between 48° 20′ and 51° north latitude, and longitude 123° and 128° west from Greenwich, has recently been erected into a separate Government by the Crown of Great Britain. Length, 300 miles; greatest breadth, 75 miles. Estimated area, 16,000 square miles. Population 12,000. Seat of Government, FORT LANGLEY.

The climate of this region is peculiarly mild, except for a portion of the winter months. Soil various, but mostly susceptible of high cultivation. Sir James Douglass, *Governor.*

PROJECTED CONFEDERATION OF THE BRITISH PROVINCES.

The new confederation, which is said to find favor with the Imperial Government as well as with the majority of the inhabitants of the Provinces, would embrace, if fully carried out, six provinces and three territories, as follows:

States.	Square miles.	Population.
Canada East	201,989	890,261
Canada West	148,832	952,004
New Brunswick	27,700	193,800
Newfoundland	35,913	101,600
Nova Scotia and Cape Breton	18,746	276,117
Prince Edward's Island	2,134	62,678
	435,314	2,476,460
Territories.		
Hudson's Bay Territory	2,480,000	180,000
Labrador	150,000	100,000
Vancouver Island	16,000	12,000
Total	3,081,314	2,768,460

The government of Nova Scotia has opened negotiations with those of the other provinces, for such confederation, and the subject is now under consideration.

In addition to the above immense Territory, there are unexplored Arctic Lands estimated to contain 500,000 square miles. Making a total area of about 3,500,000 square miles. Coal, gold, and other precious metals, are found in abundance in the western portion of this territory.

COMMERCE OF THE UNITED STATES.

THE Commerce of the United States with Foreign Nations and their colonies, for the fiscal year 1857, ending 30th of June last, reported officially to Congress by the Secretary of the Treasury, is as follows:

Gross Exchanges of Treasury Year 1857.

Imported in Foreign Goods		$348,428,342
Foreign Specie brought in		12,461,799
Total		$360,890,141
Exported in Produce of U. S.	$278,906,713	
Foreign re-exported	14,905,509	
Remitted in American Gold	60,078,352	
In Foreign Gold and Silver	9,058,570	
Total		$362,949,144
Balance in favor of United States		$2,059,003

The total Imports of foreign goods for the year as above	$348,428,342
Of which re-exported	14,905,509
Left for American market	$333,522,833
Left for American market in 1856	295,650,938
Apparent excess	$37,871,895

We may here note that nearly if not the whole of this excess was held in bond at the close of the fiscal year, June 30. The amount bonded in New York alone was then $37,054,152, or an excess of twenty-six millions over the amount in bond at the close of the previous year; and the amount in bond has since been increased *for the want of a market.*

The Export of Domestic Produce for the year, as above	$278,906,713
Against the Export of 1856	266,438,051
Excess in Export of Produce	$12,468,662

The Gold and Silver Exchanges of the two years compare as follows:

In 1856, Remitted in American Gold	$44,148,279
And in Foreign Specie	1,597,206
Total Specie sent abroad	$45,745,485
Less Foreign Specie entered	4,207,622
Net Specie sent out *last* year	$41,536,863
In 1857, Remitted in American Gold	60,078,352
And in Foreign Specie	9,058,570
Total Specie sent abroad	$69,136,922
Less Foreign Specie entered	12,461,799
Net Specie sent out *this* year	$56,675,123

The following Official Tables are convenient for reference, and interesting as showing that the Foreign Trade of the United States has more than tripled in the brief period of twelve years, both in Exports and Imports:

UNITED STATES GOVERNMENT.

THE ORGANIZATION OF THE EXECUTIVE DEPARTMENTS OF THE GOVERNMENT OF THE UNITED STATES.

STATE DEPARTMENT.

THE whole machinery employed to conduct the business arising out of our Foreign Relations with all the powers of the world is far more simple than is generally conceived. The number employed in the Department of State of the United States is only seventeen, as follows: Hon. LEWIS CASS, Secretary of State; John Appleton, Assistant Secretary of State; one chief clerk, twelve clerks, one translator, and one librarian.

Diplomatic Branch.—This branch of the State Department has charge of all correspondence between the department and other diplomatic agents of the United States abroad, and those of foreign powers accredited to this government. In it all diplomatic instructions sent from the department, and communications to commissions under treaties of boundaries, etc., are prepared, copied, and recorded; and all of like character received are registered and filed—their contents being first entered in an analytic table or index.

Consular Branch.—This branch has charge of the correspondence, etc., between the department, and the consuls and commercial agents of the United States. In it instructions to those officers, and answers to their dispatches and to letters from other persons asking for consular agency, or relating to consular affairs, are prepared and recorded.

The Disbursing Agent.—He has charge of all correspondence, and other matters connected with accounts relating to any fund, with the disbursement of which the department is charged.

The Translator.—His duties are to furnish such translations as the department may require. He also records the commissions of consuls and vice-consuls, when not in English, upon which exequaturs are issued.

Clerk of Appointments and Commissions.—He makes out and records commissions, letters of appointment, and nominations to the Senate; makes out and records exequaturs, and records, when in English, the commissions on which they are issued. Has charge of the library

Clerk of the Rolls and Archives.—He takes charge of the rolls, or enrolled acts and resolutions of Congress, as they are received at the department from the President; prepares the authenticated copies thereof, which are called for; prepares for, and superintends their publication, and that of treaties, in the newspapers and in book form; attends to their distribution throughout the United States, and that of all documents and publications, in regard to which this duty is assigned to the department; writing and answering all letters connected therewith. Has charge of all Indian treaties, and business relating thereto.

Clerk of Authentications and Copyrights.—He has charge of the seals of the United States and of the department, and prepares and attaches certificates to papers presented for authentication; receives and accounts for the fees. Has charge of publications transmitted to the department under the laws relating to copyrights; records and indexes their titles; records all letters from the department, other than the diplomatic and consular.

Clerk of Pardons and Passports.—He prepares and records pardons and remissions, and registers and files the petitions and papers on which they

are founded. Makes out and records passports; keeps a daily register of all letters, other than diplomatic and consular, received, and of the disposition made of them; prepares letters relating to this business.

TREASURY DEPARTMENT.

The Treasury Department consists of the offices of the Secretary of the Treasury, two Comptrollers, Commissioner of the Customs, six Auditors, Treasurer, Register, Solicitor, Light-house Board, and Coast Survey.

Hon. Howell Cobb, Secretary of the Treasury; Philip Clayton, Assistant Secretary; one engineer in charge; one architect, and three draughtsmen temporarily employed, and twenty-three clerks. The Secretary of the Treasury is charged with the general supervision of the fiscal transactions of the government, and of the execution of the laws concerning the commerce and navigation of the United States. He superintends the survey of the coast, the light-house establishments, the marine hospitals of the United States, and the construction of certain public buildings for custom-houses and other purposes.

First Comptroller's Office.—William Medill, Comptroller, and fifteen clerks. He prescribes the mode of keeping and rendering accounts for the civil and diplomatic service, as well as the public lands, and revises and certifies the balances arising thereon.

Second Comptroller's Office.—J. W. Cutts, Comptroller, and seventeen clerks. He prescribes the mode of keeping and rendering the accounts of the army, navy, and Indian departments of the public service, and revises and certifies the balances arising thereon.

Office of Commissioner of the Customs.—Hugh J. Anderson, Commissioner, and eleven clerks. He prescribes the mode of keeping and rendering the accounts of the customs revenue and disbursements, and for the building and repairing custom-houses, etc., and revises and certifies the balances arising thereon.

First Auditor's Office.—Thomas L. Smith, First Auditor, and nineteen clerks. He receives and adjusts the accounts of the customs revenue and disbursements, appropriations and expenditures on account of the civil list, and under private acts of Congress, and reports the balances to the Commissioner of the Customs and the First Comptroller, respectively, for their decision thereon.

Second Auditor's Office.—Thomas J. D. Fuller, Second Auditor, and twenty-one clerks. He receives and adjusts all accounts relating to the pay, clothing, and recruiting of the army, as well as armories, arsenals, and ordnance, and all accounts relating to the Indian Department, and reports the balances to the Second Comptroller for his decision thereon.

Third Auditor's Office.—Robert J. Atkinson, Third Auditor, and seventy-eight clerks. He receives and adjusts all accounts for subsistence of the army, fortifications, military academy, military roads, and the Quartermaster's department, as well as for pensions, claims arising from military services previous to 1816, and for horses and other property lost in the military service under various acts of Congress, and reports the balances to the Second Comptroller for his decision thereon.

Fourth Auditor's Office.—Aaron O. Dayton, Fourth Auditor, and sixteen clerks. He receives and adjusts all accounts for the service of the Navy Department, and reports the balances to the Second Comptroller for his decision thereon.

Fifth Auditor's Office.—Murray McConnell, Fifth Auditor, and six clerks. He receives and adjusts all accounts for diplomatic and similar services performed under the direction of the State Department, and reports the balances to the First Comptroller for his decision thereon.

Sixth Auditor's Office.—Dr. Thomas M. Tate, Auditor of the Treasury for the Post Office Department, and one hundred and fourteen clerks. He receives and adjusts all accounts arising from the service of the Post Office Department. His decisions are final, unless an appeal be taken in twelve months to the First Comptroller. He superintends the collection of all debts due the Post Office Department, and all penalties and forfeitures imposed on postmasters and mail contractors for failing to do their duty; he directs suits and legal proceedings, civil and criminal, and takes all such measures as may be authorized by law to enforce the prompt payment of moneys due to the department; instructing United States attorneys, marshals, and clerks in all matters relating thereto; and receives returns from each term of the United States courts of the condition and progress of such suits and legal proceedings; has charge of all lands and other property assigned to the United States in payment of debts due the Post Office Department, and has power to sell and dispose of the same for the benefit of the United States.

Treasurer's Office.—Samuel Casey, Treasurer, and thirteen clerks. He receives and keeps the moneys of the United States in his own office, and that of the depositories created by the act of the 6th of August, 1846, and pays out the same upon warrants drawn by the Secretary of the Treasury, countersigned by the First Comptroller, and upon warrants drawn by the Postmaster General, and countersigned by the Sixth Auditor, and recorded by the Register. He also holds public moneys advanced by warrant to disbursing officers, and pays out the same upon their checks.

Register's Office.—Finley Bigger, Register, and twenty-nine clerks. He keeps the accounts of public receipts and expenditures; receives the returns and makes out the official statement of commerce and navigation of the United States; and receives from the First Comptroller and Commissioner of Customs all accounts and vouchers decided by them, and is charged by law with their safe-keeping.

Solicitor's Office.—Junius Hillyer, Solicitor, and six clerks. He superintends all civil suits commenced by the United States (*except those arising in the Post Office Department*), and instructs the United States attorneys, marshals, and clerks in all matters relating to them and their results. He receives returns from each term of the United States courts, showing the progress and condition of such suits; has charge of all lands and other property assigned to the United States in payment of debts (*except those assigned in payment of debts due the Post Office Department*), and has power to sell and dispose of the same for the benefit of the United States.

Light-house Board.—Hon. Howell Cobb, Secretary of the Treasury, *ex-officio* President; Com. W. B. Shubrick, United States Navy, Chairman; Gen. J. G. Totten, United States Army; Capt. A. A. Humphreys, United States Army; Prof. A. D. Bache, Superintendent of Coast Survey; Prof. Joseph Henry, Secretary of Smithsonian Institute; Capt. Samuel Barron, United States Navy; Commander Thornton A. Jenkins, United States Navy, and Capt. Wm. B. Franklin, United States Army, Secretaries; and five clerks. This board directs the building and repairing of light-houses, light-vessels, buoys, and beacons; contracts for supplies of oil, etc.

United States Coast Survey Office.—Prof. A. D. Bache, LL.D., Superintendent, and superintendent of weights and measures.

Capt. M. L. Smith, of topographical engineers, assistant, in charge of the Coast Survey Office.

A. W. Russell, chief clerk; C. B. Snow, in charge of archives.

Professor A. G. Pendleton, United States Navy, computer of longitudes.

Assistant Chas. A. Schott, in charge of computing division.

Assistant L. F. Pourtales, in charge of tidal division.

Lieut. J. C. Tidball, United States Army, in charge of drawing division.
Lieut. Saxton, United States Army, in charge of engraving division.
Samuel Hein, disbursing agent; George Mathiot, electrotypist.
Joseph Saxton, assistant to superintendent of weights and measures.

INTERIOR DEPARTMENT.

Hon. JACOB THOMPSON, Secretary of the Department of the Interior. Its clerical force consists of one chief clerk (Moses Kelly, Esq.,) two disbursing clerks, and ten other regular clerks; and to its supervision and management are committed the following branches of the public service:

1st. *The Public Lands.*—The chief of this bureau is called the Commissioner of the General Land Office. The Land Bureau is charged with the survey, management, and sale of the public domain, and the issuing of titles therefor, whether derived from confirmations of grants made by former governments by sales, donations, of grants for schools, military bounties, or public improvements, and likewise the revision of Virginia military bounty-land claims, and the issuing of scrip in lieu thereof. The Land Office, also, audits its own accounts. The present Commissioner is T. A. Hendricks, of Indiana. Its principal officers are a recorder, chief clerk, principal clerk of surveys, besides a draughtsman, assistant draughtsman, and some 150 clerks of various grades.

2d. *Pensions.*—The present head of this bureau is George C. Whiting. The commissioner is charged with the examination and adjudication of all claims arising under the various and numerous laws passed by Congress, granting bounty land or pensions for the military or naval services in the revolutionary and subsequent wars in which the United States have been engaged. He has one chief clerk, and a permanent corps consisting of some seventy other clerks, to which Congress, to enable him to meet the extraordinary requirements of the new bounty-land law, has added a temporary force of about fifty clerkships of different denominations.

3d. *Indians.*—Commissioner of Indian Affairs *ad interim*, Charles E. Mix, of Georgetown, D. C. He is provided with a chief clerk and about fifteen other subordinate clerks.

4th. *Patent Office.*—To this bureau is committed the execution and performance of all "acts and things touching and respecting the granting and issuing of patents for new and useful discoveries, inventions, and improvements;" the collection of statistics relating to agriculture; the collection and distribution of seeds, plants, and cuttings. It has a chief clerk—who is by law the acting Commissioner of Patents in the absence of the Commissioner—twelve principal, and twelve assistant examiners of patents, some dozen subordinate permanent clerks, besides a considerable number of temporary employées.

Besides these four principal branches of this new executive department, the organic act of 1849 transferred to it from the Treasury Department the supervision of the accounts of the United States marshals and attorneys, and the clerks of the United States courts, the management of the lead and other mines of the United States, and the affairs of the penitentiary of the United States in the District of Columbia; and from the State Department the duty of taking and returning the censuses of the United States, and of supervising and directing the acts of the Commissioner of Public Buildings, The hospital for the insane of the army and navy, and of the District of Columbia, is also under the management of this department; in addition to which, by-laws recently passed, the Secretary of the Interior is charged with the construction of the three wagon roads leading to the Pacific coast.

The department requires an additional building for its accommodation, and the erection of one has been repeatedly recommended during the last few years for that purpose. At present the Pension Office is provided with rooms in what is known as "Winder's Building," while the other branches of the department, including the Secretary's office, are all crowded into the Patent Office building, the whole of which will be required at an early day for the use of the Patent Office, for which it was originally intended.

WAR DEPARTMENT.

Hon. John B. Floyd, Secretary of War; W. R. Drinkard, Chief Clerk; seven subordinate clerks, two messengers, and four watchmen. The following bureaus are attached to this department:

Commanding General's Office.—This office, at the head of which is Lieut. General Scott, is at New York.

Adjutant General's Office.—Col. Samuel Cooper, Adjutant General. Assistants—Brevet Major E. D. Townsend, Brevet Capt. S. Williams, and Brevet Capt. J. P. Garesche. Judge Advocate, Brevet Major John F. Lee; nine clerks and one messenger. In this office are kept all the records which refer to the *personnel* of the army, the rolls, etc. It is here where all military commissions are made out.

Quartermaster General's Office.—Brevet Major General T. S. Jesup, Quartermaster General. Assistants—Col. C. Thomas, Captain M. S. Miller, and Brevet Major J. Belger; eleven clerks and one messenger.

Paymaster General's Office.—Col. B. F. Larned, Paymaster General; Major T. J. Leslie, District Paymaster; eight clerks and one messenger.

Commissary General's Office.—Gen. George Gibson, Commissary General; assistant, Captain M. D. L. Simpson; six clerks and one messenger.

Surgeon General's Office.—Gen. Thomas Lawson, Surgeon General; assistants, Dr. R. C. Wood and Dr. G. K. Wood; three clerks.

Engineer Office.—General Joseph G. Totten, Chief Engineer; assistant, Captain H. G. Wright; five clerks and one messenger.

Topographical Bureau.—Col. J. J. Abert, Colonel of the Corps; assistant, Captain J. C. Woodruff; four clerks and one messenger.

Ordnance Bureau.—Col. H. R. Craig, Colonel of Ordnance; assistant, Capt. Wm. Maynadier; eight clerks and one messenger.

NAVY DEPARTMENT.

The Navy Department consists of the Navy Department proper, being the office of the Secretary and of five bureaus attached thereto, viz.: Bureau of Navy-yards and Docks; Bureau of Construction, Equipment, and Repair; Bureau of Provisions and Clothing; Bureau of Ordnance and Hydrography, and the Bureau of Medicine and Surgery.

Hon. Isaac Toucey, Secretary of the Navy; Charles W. Welsh, Esq., Chief Clerk, and eleven clerks. The Secretary of the Navy has charge of everything connected with the naval establishment, and the execution of all laws relating thereto is intrusted to him, under the general direction of the President of the United States, who, by the constitution, is commander-in-chief of the army and navy. All instructions to commanders of squadrons and commanders of vessels, all orders of officers, commissions of officers, both in the navy and marine corps, appointments of commissioned and warrant officers, orders for the enlistment and discharge of seamen, emanate from the Secretary's office. All the duties of the different bureaus are performed under the authority of the Secretary, and their orders are considered as emanating from him. The general superintendence of the marine corps forms, also, a part of the duties of the Secretary, and the orders of the commandant of that corps should be approved by him.

Bureau of Navy-Yards and Docks.—Commodore Joseph Smith, Chief of the Bureau; four clerks, one civil engineer, and one draughtsman. All the navy-yards, docks and wharves, buildings and machinery in the navy-yards, and everything immediately connected with them, are under the superintendence of this bureau. It is also charged with the management of the Naval Asylum.

Bureau of Construction, Equipment, and Repair.—John Lenthall, Chief of the Bureau, eight clerks and one draughtsman. The office of the engineer-in-chief of the navy, Daniel B. Martin, Esq., is attached to this bureau, who is assisted by three assistant engineers. This bureau has charge of the building and repairs of all vessels of war, purchase of materials, and the providing of all vessels with their equipments, as sails, anchors, water-tanks, etc. The engineer-in-chief superintends the construction of all marine steam-engines for the navy, and, with the approval of the Secretary, decides upon plans for their construction.

Burea of Provisions and Clothing.—Horatio Bridge, Purser United States Navy, Chief of Bureau, and four clerks. All provisions for the use of the navy, and clothing, together with the making of contracts for furnishing the same, come under the charge of this bureau.

Bureau of Ordnance and Hydrography.—Capt. Duncan Ingraham, Chief of Bureau, four clerks and one draughtsman. This bureau has charge of all ordnance and ordnance stores, the manufacture or purchase of cannon, guns, powder, shot, shells, etc., and the equipment of vessels of war, with everything connected therewith. It also provides them with maps, charts, chronometers, barometers, etc., together with such books as are furnished ships-of-war. "The United States Naval Observatory and Hydrographical Office," at Washington, and the Naval Academy at Annapolis, are also under the general superintendence of the chief of this bureau.

Bureau of Medicine and Surgery.—Dr. William Whelan, Surgeon United States Navy, Chief of Bureau; one passed assistant surgeon United States Navy, and two clerks. Everything relating to medicines and medical stores, treatment of sick and wounded, and management of hospitals, comes within the superintendence of this bureau.

ATTORNEY GENERAL'S OFFICE.

Hon. Jeremiah S. Black, Attorney General of the United States; R. H. Gillet, Chief Clerk. The ordinary business of this office may be classified under the following heads:

1. Official opinions on the current business of the government, as called for by the President, by any head of the department, or by the Solicitor of the Treasury.
2. Examination of the titles of all land purchased, as the sites of arsenals, custom-houses, light-houses, and all other public works of the United States.
3. Applications for pardons in all cases of conviction in the courts of the United States.
4. Applications for appointment in all the judicial and legal business of the government.
5. The conduct and argument of all suits in the Supreme Court of the United States in which the government is concerned.
6. The supervision of all other suits arising in any of the departments, when referred by the head thereof to the Attorney General.

To these ordinary heads of the business of the office are added, at the present time, the following, viz.:

1. The direction of all appeals on land claims in California.
2. The codification and revision of the laws of the District of Columbia

POST OFFICE DEPARTMENT.

Hon. AARON V. BROWN, Postmaster General. The direction and management of the Post Office Department are assigned by the constitution and laws to the Postmaster General. That its business may be the more conveniently arranged and prepared for his final action, it is distributed among several bureaus, as follows: The Appointment Office, in charge of the First Assistant Postmaster General; the Contract Office, in charge of the Second Assistant Postmaster General; the Finance Office, in charge of the Third Assistant Postmaster General; and the Inspection Office, in charge of the chief clerk.

Appointment Office.—Horatio King, First Assistant Postmaster General, and nineteen clerks. To this office are assigned all questions which relate to the establishment and discontinuance of post offices, changes of sites and names, appointment and removal of postmasters, and route and local agents, as, also, the giving of instructions to postmasters. Postmasters are furnished with marking and rating stamps and letter balances by this bureau, which is charged also with providing blanks and stationery for the use of the department, and with the superintendence of the several agencies established for supplying postmasters with blanks. To this bureau is likewise assigned the supervision of the ocean mail steamship lines, and of the foreign and international postal arrangements.

Contract Office.—William H. Dundas, Second Assistant Postmaster General, and twenty-six clerks. To this office is assigned the business of arranging the mail service of the United States, and placing the same under contract, embracing all correspondence and proceedings respecting the frequency of trips, mode of conveyance, and times of departures and arrivals on all the routes; the course of the mail between the different sections of the country, the points of mail distribution, and the regulations for the government of the domestic mail service of the United States. It prepares the advertisements for mail proposals, receives the bids, and takes charge of the annual and occasional mail lettings, and the adjustment and execution of the contracts. All applications for the establishment or alteration of mail arrangements, and the appointment of mail messengers, should be sent to this office. All claims should be transmitted to it for transportation service not under contract, as the recognition of said service is first to be obtained through the Contract Office as a necessary authority for the proper credits at the Auditor's Office. From this office all postmasters at the ends of routes receive the statement of mail arrangements prescribed for the respective routes. It reports weekly to the Auditor all contracts executed, and all orders affecting accounts for mail transportation; prepares the statistical exhibits of the mail service, and the reports of the mail lettings, giving a statement of each bid; also, of the contracts made, the new service originated, the curtailments ordered, and the additional allowances granted within the year.

Finance Office.—John Marron, Third Assistant Postmaster General, and twenty-one clerks. To this office are assigned the supervision and management of the financial business of the department, not devolved by law upon the Auditor, embracing accounts with the draft offices and other depositories of the department, the issuing of warrants and drafts in payment of balances reported by the Auditor to be due to mail contractors and other persons, the supervision of accounts of offices under orders to deposit their quarterly balances at designated points, and the superintendence of the rendition by postmasters of their quarterly returns of postages. It has charge of the dead-letter office, of the issuing of postage stamps and stamped envelopes for the pre-payment of postage, and of the accounts connected therewith.

To the Third Assistant Postmaster General all postmasters should direct their quarterly returns of postage; those at draft offices, their letters reporting quarterly the net proceeds of their offices; and those at depositing offices, their certificates of deposit; to him should also be directed the weekly and monthly returns of the depositories of the department, as well as all applications and receipts for postage stamps and stamped envelopes, and for dead letters.

Inspection Office.—John Oakford, Chief Clerk, and seventeen clerks. To this office is assigned the duty of receiving and examining the registers of the arrivals and departures of the mails, certificates of the service of route agents, and reports of mail failures; of noting the delinquencies of contractors, and preparing cases thereon for the action of the Postmaster General; furnishing blanks for mail registers, and reports of mail failures; providing and sending out mail-bags and mail locks and keys, and doing all other things which may be necessary to secure a faithful and exact performance of all mail contracts.

All cases of mail depredation, of violation of law by private expresses, or by the forging or illegal use of postage stamps, are under the supervision of this office, and should be reported to it.

All communications respecting lost money, letters, mail depredations, or other violations of law, or mail-locks and keys, should be directed "Chief Clerk, Post Office Department."

All registers of the arrivals and departures of the mails, certificates of the service of route agents, reports of mail failures, applications for blank registers, and reports of failures, and all complaints against contractors for irregular or imperfect service, should be directed "Inspection Office, Post Office Department."

For further information in regard to the names of the officers of the different Departments of the Government, Members of Congress, etc., see NATIONAL REGISTER, page 211.

COURTS OF JUSTICE.

The Court for the Trial of Impeachments, is composed of the President of the Senate, the senators or a major part of them, and the judges of the Court of Appeals or the major part of them. On the trial of an impeachment against the governor, the lieutenant governor is not a member of the court. It has jurisdiction of all impeachments, but its judgment extends only to removal from office, or removal with disqualification to hold any office of honor, trust or profit. It is held at the Capital upon the summons of the President of the Senate whenever an impeachment shall be delivered to him from the Assembly. The President of the Senate, or in his absence, the Chief Judge of the Court of Appeals presides.

The Court of Appeals, is composed of four judges, who are elected to the office, and who hold their offices for eight years, one being elected every second year, and four of the justices of the Supreme Court taken from the class having the shortest period to serve. The justices of the first, third, fifth and seventh districts serve in the years ending with an even number, and those of the second, fourth, sixth and eighth districts in the years ending with an odd number. Its jurisdiction is appellate only. It reviews judgments, and in some cases, orders made by a general term of the Supreme Court, the Superior Court and the Court of Common Pleas of the City of New York, and the Superior Court of the City of Buffalo. There are four stated terms held at the capital, in the city of Albany, on the first Tuesday in January, the fourth Tuesday in March, the third Tuesday in June and the last Tuesday in September, and the court has power to appoint additional terms when the public interest requires them. The senior elected judge is the chief judge.

The Supreme Court consists of four justices, elected in each of the eight judicial districts of the State, except the first, and of five elected in that district, making the number of justices thirty-three. It has original jurisdiction of all civil actions arising within the state. Practically, however, this jurisdiction only extends to actions where the amount in controversy exceeds fifty dollars. It has also an appellate jurisdiction in criminal cases brought before it from courts having the original jurisdic-

tion, by certiorari or writs of error. In each judicial district four *general terms* are held in each year, and as many more as the justices in the district may appoint. Three justices are required to hold a general term. The general terms are practically courts of review of the decisions made at *circuit* and *special* terms.

Circuit Courts and Special Terms are held by a single justice of the Supreme Court. Two must be held annually in each county. The Circuit Courts try the issues of fact arising in actions in the Supreme Court; and in such actions as were formerly known as actions at law, unless both parties consent to a trial before the court alone the trial is before a jury. At the Special terms questions of law, and trials in actions formerly known as suits in chancery are tried by the court without a jury.

The Superior Court of the City of New York, The Court of Common Pleas in the City of New York and *The Superior Court of the City of Buffalo* have within their respective cities the same jurisdiction as the Supreme Court. The Superior Court of the City of New York has a chief justice and five other justices, the Court of Common Pleas a first judge and two associate judges, and the Superior Court of the City of Buffalo three justices.

The County Courts have civil jurisdiction in actions where the relief demanded does not exceed five hundred dollars, and in a variety of special proceedings. They also have power to hear and determine appeals from judgments rendered by justices of the peace. Each is held by a county judge. The county judge, in connection with two justices of the peace, elected for the purpose, holds courts of sessions which have jurisdiction of most criminal cases.

Surrogates, and in counties where there is no surrogate, the county judge holds Surrogate Courts having jurisdiction in matters relating to the estates of deceased persons and orphans.

Courts of Oyer and Terminer, having jurisdiction of all criminal cases, are held by a justice of the Supreme Court and the county judge, or the justices of the peace elected as justices of the courts of sessions.

City Gourts. In several of the cities of the State there are courts having local and peculiar jurisdiction, held by a Recorder or City Judge. In the City of New York the Recorder and City Judge hold the Court of General Sessions. The City Court of Brooklyn is a court of record in civil cases, and has criminal jurisdiction as a Court of General Sessions.

In the city of New York the *Marine Court* and *District Courts* are courts of inferior and limited jurisdiction, with powers and jurisdiction in the trial of small causes peculiar to themselves.

SUPERIOR COURT OF THE CITY OF NEW YORK.

General, Trial and Special Terms are held on the first Monday of January, February, March, April, May, June, October, November and December, and continue until the last Saturday of such months respectively.

At the General Term, the Court hears appeals and enumerated motions, and opens at 11 o'clock.

The Trial Term is held in the City Hall by two Justices severally. Open at 10 o'clock.

The Special Term is held by one Justice, at the New City Hall, and opens at 1 o'clock.

Appeals for all orders made on non enumerated motions, are heard on each Saturday during the General Term, at 11 o'clock, and must be noticed for that time.

All applications for *ex parte* orders, and for judgments upon failure to answer, must be made at Chambers before 11 o'clock.

UNITED STATES COURT OF CLAIMS.

THIS Court was instituted by an Act of Congress, entitled "An act to establish a Court for the investigation of Claims against the United States," of Feb. 24, 1855. It had become a public necessity that some tribunal of a judicial character should take charge of that class of the public business. Public opinion, in demanding and obtaining the organization of this court, virtually decided, not only as to the necessity, but also that Congress is not the proper tribunal to hear and adjudicate claims of the public creditor. The Court has jurisdiction to hear and determine (1) all claims founded upon any law of Congress; (2) all claims founded upon any regulation of an executive department; (3) claims founded upon any contract, express or implied, with the government of the United States; (4) all claims referred to said court by either House of Congress. The Court of Claims has been in operation since 1855, with general approbation and great public benefit; but its position is not as yet sufficiently that of a judicial body. It is too dependent upon Congress. Future legislation will probably correct this defect, and render decisions of the court, whether in favor or against the government, final, or subject to review by the Supreme Court of the United States, not Congress. Devereux's Report and Digest, published in 1856, contains full information as to the court, its organization, functions, practice, and decisions.

APPENDIX.

STATE LIBRARY.

THIS Library was founded by the Legislature in 1818, and now occupies a new building erected for its accommodation in the rear of the Capitol at Albany. It consists of two departments—one styled the LAW LIBRARY, and the other the MISCELLANEOUS LIBRARY—containing together about 50,000 volumes. The Regents of the University are *ex officio* Trustees of the Library. The late Dr. T. ROMEYN BECK, for several years Secretary of the Board of Regents, devoted much attention to the increase of the Library, and it has become, in a great measure, through his indefatigable exertions, one of the largest and most important Collections of Literary, Scientific, and Miscellaneous Works, as well of Books relating to Jurisprudence, in this country.

ONONDAGA SALT SPRINGS.

These celebrated salines are the property of the State. The tract in which they are found, called the "Onondaga Salt Springs Reservation," is in the city of Syracuse, and embraces within its limits the Onondaga Lake, and the villages of Geddes and Liverpool. Many years ago, the greater part of the reservation was laid out in village plats, and farm and pasture lots, and sold to private citizens, so that the grounds now belonging to the State constitute but a small portion of the original tract. By means of shafts of small bore, varying from about 90 to more than 400 feet in depth, tubed and fitted with pumps, the brine is raised and poured into reservoirs, from which it is distributed in pipes to the different works for making salt. Of this brine, about 45 gallons furnish a bushel of salt; and the revenue of the State is derived from a duty of one cent on each bushel. This duty was originally fixed by the constitution at a shilling, but was reduced to 6 cents by an amendment of that instrument; in 1846 the duty was further reduced to one cent a bushel.

Two modes of making salt are in use at these springs, one by artificial heat, and the other by evaporation in the sun. The former process is much the less accurate of the two, and the salt produced by it is of an inferior quality; while the solar salt is purer than any other, and enjoys a high reputation. By those who are thoroughly acquainted with this subject, the duty paid to the State is said to constitute but very little less than half of the whole cost of production.

The interests of the State on the reservation are put in charge of two

principal officers, designated respectively the Superintendent of Salt Springs, and Inspector of Salt, in the county of Onondaga. The duties of the latter relate chiefly to the quality of salt, its measurement, packing, and the character of the barrels in which it is sent to market. The Superintendent has the general oversight of the reservation, the sinking of shafts, the regulation of the pumps. the supply and distribution of the brine to the different works, the care of the State lands to prevent intrusion and trespasses, and the leasing of lots for the erection of works for making fine salt. The granting of the lands set apart for the manufacture of the coarse or solar salt, is vested in the Commissioners of the Land Office.

Of the total quantity of salt annually produced at these springs, about nine-tenths are of the kind made by boiling, which usually goes by the name of "fine salt," on account of the minuteness of its crystals; and the other one-tenth, which forms in very much larger crystals, is commonly designated "coarse salt."

Extract from the Report of the Superintendent of the Onondaga Salt Springs, dated Feb. 1, 1858.

INSPECTION OF SALT.

The whole amount of salt inspected on the Salt Springs Reservation, at and near Syracuse, in the county of Onondaga, during the year 1857, is 4,312,126 bushels.

Of this amount, the inspection in the several districts has been as follows:

District No. 1, Syracuse.		
Fine salt	538,051	
Solar salt	190,581	
Dairy or ground salt	44,570	
		773,202
District No. 2, Salina.		
Fine salt	1,709,254	
Solar salt	127,681	
Dairy salt	287,673	
		2,124,608
District No. 3, Liverpool.		
Fine salt	732,037	
Solar salt	11,680	
Dairy salt		
		743,717
District No. 4, Geddes.		
Fine salt	507,650	
Solar salt	114,518	
Dairy salt	48,431	
		670,599
Total as above		4,312,126

The revenues collected by the Superintendent during the year are as follows:

Duties on 4,312,126 bushels salt at one cent per bushel	$43,121 26
Received for fines	5 00
	$43,126

V. W. Smith, Superintendent, Syracuse.

SAILOR'S SNUG HARBOR.

[Situated on the North side of Staten Island.)

This noble charitable Institution, was founded by the testament of Capt. Robert R. Randall, who died in 1801, bequeathing a large landed estate in the City of New York, the income of which was to be expended in supporting aged and disabled sailors. It is under the direction of trustees appointed by the will, who have within a few years caused to be erected a large and splendid edifice, consisting of a centre building and two extensive wings, two stories in height besides the basement; showing a marble front of 225 feet—attached to which is a farm of 160 acres of land. Upwards of 360 aged and disabled sailors find here a *safe retreat*, free from the cares and storms of life. The remains of the donor are deposited in front of the main building, over which has been erected an appropriate monument to his memory.

SEAMAN'S FUND AND RETREAT.

Office, No. 12 Old Slip, New York. The Retreat is situated on Staten Island, near the Quarantine Ground.

This is a hospital for the reception of sick and disabled seamen. It was founded by a law of the State in 1831, levying a tax on each master of a vessel of $1 50 for each foreign voyage, mates $1, and 50 cents for every mariner, and 20 cents for each voyage coastwise; which entitles each individual to the benefit of the hospital while sick or disabled.

The amount collected is about $37,000 annually.

The hospital is a valuable building, of three stories; 208 feet long by 52 wide, having wings of 34 feet in depth, and three stories high. This hospital cost $100,000. Attached to it are 37 acres of ground, which cost the State about $10,000. It will accommodate 300 patients.

By a law passed March 17, 1843, "The Trustees of the Seamen's Fund

and Retreat in the City of New York, shall consist of the following persons, to wit: The Mayor of the said city, the Health Officer, the President of the Marine Society, together with seven other persons appointed by the Governor and Senate, four of whom shall be or shall have been shipmasters."

Aggregate ratio of increase of the whole Population of the United States, from 1830 to 1840, 32 1-2 per cent.

TABULAR VIEW OF THE PROGRESSIVE POPULATION OF THE UNITED STATES FROM THE ORIGINAL CENSUS OF 1790 UNTIL 1901.

By William Darby, Esq.

The first idea of constructing such a table was suggested by the results of a process undertaken from mere curiosity. That process was performed by taking the sum of the first census of 1790, and allowing an increment of three per cent. annually; thus, 3,929,827, in ten consecutive operations on the principle assumed, gave for 1800, 5,281,468, which differed only 23,457 in deficit from the actual returns by the census of the latter year. The thought was then excited to construct a Centennial Table.

It must be obvious to any person moderately acquainted with the subject, that in such a case no rule can be made absolute; nor is it of primary importance that positive accuracy as to numbers should, were it practicable be obtained. The very remarkable fact developed by the middle column must excite surprise in the first exhibition, but must also secure confidence in the general results. This column is based entirely on the original sum of 3,929,827, without any regard to the intermediate decennial enumerations.

The first or left hand column contains the decennial returns by the Census, with the ratios of increase during the terms, up to 1840. The mean ratio during the fifty years from 1790 to 1840 inclusive, comes out to a very near fraction, 4,342. This ratio was then used to deduce the decennial numbers through the subsequent half-century.

Even well-informed persons, but who have not paid particular attention to the subject, may be excusably startled when they read the future increase and enormous mass of population stated opposite the year 1901, at the foot of either column. The tables, however, contain internal evidence of accuracy as far as the nature of the case can admit, and especially by showing that, in the previous half-century to 1840, the population had more than quadrupled

Further, that the so established increase was made under difficulties, some of which are altogether removed, and all lessened in their deteriorating effects, whilst on the other side facilities of transportation by land and water, by steam, roads, and other improved means, are multiplied and multiplying beyond all human anticipation. In brief, the elements of civilized life are indefinitely increased in number and power.

"My object is to call attention to the fact, that a policy of Life INSURANCE is the cheapest and safest mode of making a certain provision for one's family."—BENJ. FRANKLIN.

"One should insure in health, as sickness may suddenly overtake the most robust, and disqualify him for insurance.

"Life Insurance the best investment. If long-lived, the insured obtains a good interest on the premium paid, in cash dividends, and in most instances, a very large return for a small outlay. In case of death there is a great advantage over Savings Banks.

"The average length of human life is only thirty-three years. Of 500 persons only 1 lives 80 years, and of 100, only 6 lives 65 years."

Reference to parties in New York will be given upon application at the Branch Office.

The surplus is divided among all the policy holders in CASH, thus affording a good and certain rate of interest upon the outlay of premiums, and avoiding the large and unnecessary accumulations of unpaid dividends of uncertain tendency. and erroneously called capital.

One half of the first five annual premiums on life policies, loaned to insurers if desired. the remaining half may be paid quarterly.

The premiums are as low as those of any reliable Company.

This is the oldest American Mutual Life Insurance Company, and one of the most successful, and is purely Mutual, dividing all the surplus profits among the Insured.

Insurance may be effected for the benefit of married women beyond the reach of their husband's creditors. Creditors may insure the lives of debtors.

Blank form of application for Insurance, or the Company's Pamphlet, containing the charter, rules, and regulations, also the annual reports, showing the condition of the Company, will be furnished gratis at the
